Jasen Mohler

AMY ABSHIRE

Spouse: Dan Hays

Kids: Nicholas "Cole", 2 1/2; Jesse, 6 months

Occupation: Massage Therapist

E gads! 20 years. It can't have been that long; I can still remember graduation. Going to Roman Village for pizza after football games, sneaking to King Soopers for donuts during "required" assemblies, going to Taco Bell for lunch instead of Spanish class. Hey, it was "culturally" related. I remember driving to school with Jill quizzing each other on Shakespeare quotes "Oh Scotland, Scotland". I'm sure, however, we were never as giggly and obnoxious as the teenage girls I see out and about these days (yea, right!).

So many years, so many things done, so many left to do. Let's see...went to Europe, went to college, went to work. Fun, ok, not so fun. Worked at a magazine wholesaler for 3 years, then moved to high tech at NBI. Did sales order entry, then accounting, and in to Engineering Services. As the industry became more unstable, I looked in my heart to see what would be more satisfying -- barber school, MBA, dance major, massage school. I was already teaching dance and performing like a fiend. Hm, Hm, Hm -- took a look at the actuality of massage school and went for it. I graduated in Dec. '92 and moved into an office in Boulder in Jan. '93. Been practicing ever since, what great fun! As my life geared itself to a more flexible schedule, I found myself starting a family. A bit of a surprise,

have a little fun, don't plan ahead and voila, a baby. My first son was born Super Bowl Sunday '94. 2 years later the same recklessness resulted in #2 son born Jan. '96.

Still want to learn to play the piano, travel to England, get to the east coast at the height of fall foliage, drive down the northwest coast and visit the wineries, see my children grow into strong, healthy adults.

Major Accomplishments: 1. Keep my 2 year old in bed at night. 2. Knowing mouth to mouth resuscitation and having the presence of mind to use it when my 7 week old stopped breathing.

3. Getting up happy each day to be me.

MARGARET (ADAMS) SPARKS

Spouse: Randy (Married in 1980) Michelle, 7; Tamara, 5 Kids:

CU Study Abroad 1977-78 in Seville, Spain. Graduated CU 1981 B.S. Business, B.A. Spanish. Lived in Germany 1984 and 1985 while Randy taught English at Bamberg University. Worked in banking until this year and now am staying home with my kids!

LYNNE (ANDRADE) ALLISON

Spouse: Doug

Kids: James, 6; Marie, 3

Occupation: Surgical assistant for an oral surgeon and independent computer consultant

Interests: Member of Longmont Symphony Orchestra; trail riding on my horse; teach motorcycle riding to people for the state of Colorado's Motorcycle Operation Safety Training program; karate; porcelain doll making; hiking and camping

Past 20 Years: I've been learning a lot about life through my various interests and schooling. After a a divorce in 1985 I spent the next 5 years at C.U. where I finished my B.A. in Mathematics/Computer Science. I worked at the National Center for Atmospheric Research (N.C.A.R.) in the Scientific Computing Division until 1990, when I married Doug and cut my work to part-time independent computer consulting so that I could be a stay-at-home mother.

BETH ARNOLD-REICHSTEIN

Graduated from C.U. in 1980 with a B.A. in Elementary Education. Graduated from C.U. in 1985 with a Masters in Reading Education.

I married Ed Reichstein, believe it or not, a Boulder High graduate - 1974, in December 1986. We have a son, Calan, who is 7, and a daughter, Megan, who is 5.

I've taught elementary school-age kids for 16 years, in grades 4, 5 and 6. Right now I'm teaching fifth grade at Coal Creek Elem. in Louisville. I've also been a part-time staff development facilitator and a half-time assistant principal.

We still cheer on the C.U. Buffs in sports. I enjoy running, bicycling and swimming.

My funniest High School memory is actually a few things:

A bunch of friends and I woke Beth Bowles up on her 16th birthday and took her to IHOP in her pajamas.

Also, Judy Gaylord and I in Mrs. Zeckser's English Comp. class.

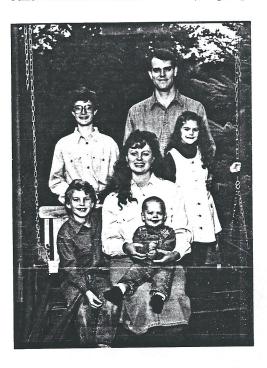

ALLISON (ARNOLD) SUPPES

I have two daughters - Karen, age 9, and Bethany, age 7. I work part-time doing computer systems support for a company that sells financial data, Standard and Poor's Compustat Services.

After High School, I attended Colorado State Univ., and received a B.S. in Medical Technology, worked a short time as a Medical Technologist, and then went back to school at Metropolitan State College. I received a degree in Accounting there.

My family and I are enjoying living in a rural area just north of Thornton. We are active in our church. My other interests include horses, dogs, quilting, and Rockies baseball!

SCOTT BAIRD

Spouse: Julie Ann (Marchant) Baird

Kids: Kyle Scott 11; Alexander Thomas 9; Hilary Nicole 5; Stuart Gray 18 mos.

Occupation: Chemical Engineer, Exxon Research & Engineering Co.

Interests, Hobbies: Hiking, camping, tennis, softball, coaching my children's Little League teams, remodeling old houses and living in foreign countries.

Major Accomplishment: Survived the 1995 Kobe (Japan) Earthquake.

Activities the past 20 years: Served a two-year mission for the Church of Jesus Christ of Latter-day Saints to Indonesia; obtained a Master's Degree in Chemical Engineering; managing to stay sane while raising four children; working for Exxon; moving all over the country and the world.

AMY (BARNARD) BUTLER

Hello everybody - still can't believe its been 20 years since departing from Fairview High School. As

with all of you, there have been many changes for me in those years.

First, vital statistics: I reside in Thousand Oaks, California (suburb of Los Angeles) with my new husband, James Butler. I have one son, Austin, from a previous marriage who will be nine years old this June. My husband and I are expecting a child in December (a new mother at 38 - HELP!!).

My career has taken me into computers where I am a Network Administrator/Computer Trainer for a large law firm in the San Fernando Valley. There are three branch offices in the L.A. area, and I travel there from time to time. Along with various professional technical classes, I FINALLY completed my B.S. and graduated in May. My husband is an attorney at the law office in which I work. We are planning a relocation to a small town in the foothills of the Northern California Sierra mountains within the next couple

of years (can't get that mountain blood out of me!).

I was quite shy in high school and didn't know a lot of people, but I had my share of fun - especially with my partner-in-crime, Lynn Todd (with whom I am still close). I won't even get into some of the things we pulled! The most ironic thing from high school that I can remember is my yearbook picture. It is by far the ugliest picture ever taken of me, and I have had to live the fact that if anyone from high school looks up my picture in the yearbook, they see THAT picture. Enclosed is an up-to-date picture of me, my husband Jim, and my son Austin.

I'm sorry that we won't be able to make it to the reunion. It would've been fun to see you all. Take

care.

BRAD BARTELS JENELLE (TENNISON) BARTELS

BRAD: I graduated from the University of Colorado with a B.A. in English literature, history, and secondary education in 1980. After briefly attending graduate school and teaching at C.U., I taught in the public schools in Boulder and Denver for eight years. While teaching, I attended the University of Denver School of Law. After receiving my law degree, I practiced criminal and employment law in Westminster for three years, and I employed as a trial lawyer for the Colorado Education Association in Denver.

JENELLE: I graduated from Colorado State University in 1980 with a B.S. in home economic education. I was married, had three great kids, and was divorced. Over the years, I worked as a waitress, caterer, and home day care provider. In 1991, I started teaching home economics in an alternative high school in Westminster.

BRAD & JENELLE: In the fall of 1992, we discovered that we worked a mere two blocks from one another in Westminster. After another first date (we were "first love" at Southern Hills Junior High School), we fell in love again and were married six months later. We now live in Longmont, have a new baby (well, he's one year old now) and are very happy managing careers and family. In our spare time (like there is any, with four kids!), we like to travel, read, and do "home improvements."

BETH BOWLES

Spouse: Paul Sessum Kelly McCabe, 10 Kids:

Current occupation: Fundraiser, dance teacher and choreographer for a private Middle-school in Los Angeles, singing with "Double Date" (accapella 50's doo wop group) at Universal Studios and partner in HBB Productions -- teaching "How to audition" workshops.

Interests: Cooking and entertaining friends

Major Accomplishments: My son Kelly, getting married to Paul, 16 years of performing and traveling

around the world singing, dancing and acting and actually getting paid for it! Funniest High School Memory: Who can remember that far back? Jason Mohler's laugh!

What I have been doing for the last 20 years: 16 years performing in places like -- Disney Land, Sacramento Music Circus, Shubert Theatre in LA, Las Vegas - Desert Inn, Henry Fonda Theatre in LA, Marines Memorial Theatre in SF, Universal Studios, toured in Europe and all over the USA. Got married and lived in San Francisco, had Kelly. Got divorced and moved back to Los Angeles. Worked for Project Angel Food (delivers free home-cooked meals to people with AIDS), Weingart Association (helps the homeless), Cable AIDS Auction Block (Live 12 hour TV show/fundraiser for AIDS organizations, Israel Tennis Centers (Community centers for underprivileged children in Israel). Married Paul, started my own business - HBB Productions, started teaching children dance, went back to school, sing with "Double Date" at Universal Studios, work on our cabin in the Los Angeles Forest, work on our home in Burbank and in need of a vacation.

RICH BRADFIELD

Spouse: Jennifer

Occupation:

World Wide Web (Internet) entrepreneur

Other Interests: Any worthwhile adventure, cycling (especially riding our tandem bicycle with my wife, Jennifer), hiking, camping traveling, reading skiing, walking my dog, going to the Rockie's games

Major Accomplishments: - not being bored too often

- doing lots of different things with my life

- two years spent with my wife traveling around the world on bicycles

- escaping from Texas after living there for seven years

Funniest FHS Memory:

- the clothes we wore

Last Twenty Years:

- college

- three years as a Marine officer

- graduate school (MBA)

- being a corporate type in Dallas and the Silicon Valley

- traveling around the world

- returned to Colorado to save money for further wandering of the globe

I have been married to Doug Goulding for 17 1/2 years. We have three children; Anne 14, Bob 10, and Jimmy 3.

I went to CU for three years and then after getting married, moved to Grand Forks, ND and graduated from the University of ND in 1980 with a degree in Archaeology and a minor in history.

I have had several archaeology jobs, I was an administrative assistant for a computer tape duplicating company and worked as a paraprofessional in special education at Majestic Heights elementary school in Boulder.

Over the years we have lived in Boulder, Grand Forks, ND, SW Colorado, Grand Junction and now

Devils Lake, ND.

Activities and hobbies have included: volunteer work in the schools, girl scout leader and help with boy scouts, bowling on morning leagues, being active in the church, canning and jelly and jam making, and

being driver and spectator for all the kids sports and extra curricular activities.

Now that I have a daughter who will be in High School next year, it is hard to believe it's been 20 years since I graduated. She sits and laughs at pictures of us in High School, and the music we listened to, and I just can't convince her that in 20 years her kids will be doing the same thing to her!

RODNEY BRIGGS

<u>Major Accomplishments</u>: I have been the top performer for the Ralph Lauren/Polo stores for the last three years. My sales are consistently over one million yearly. This makes me number one in the world. I have also purchased a second home in Scottsdale, AZ and enjoy it as much as possible.

After High School I went to school in Greeley and returned to Boulder in 1978 to manage a Cricket Gift store. In 1980 I moved to Aspen and worked for a specialty gift store owned by the daughter of Warner Brothers Production Company. In 1985 I returned to the Boulder area to work for Polo/Ralph Lauren in Cherry Creek and I also opened up a commercial cleaning company as a silent partner. It is now one of Boulder County's largest.

SUSAN (BRISCOE) AMERMAN

Wow, can't believe it's been 20 years! Well, I guess I can kind of believe it when I see the start of those teeny, tiny wrinkles. I managed to stay in Colorado this whole time. There were a few close calls when we actually went on house-hunting trips to Juneau, Alaska and some podunk town in Washington, but Colorado always won out in the end. We currently are living in Littleton. My husband, Dan, and I both work at Lockheed Martin, which is just down the road a bit. I've been at Lockheed Martin (used to be Martin Marietta) for eleven years and work as a Contract Administrator. It's pretty fun 'cause we get to negotiate contracts with somebody else's money! We have two kids, two dogs, four hermit crabs and 2 goldfish. Our son, Tyler is 8 and just got back from the Junior Olympics for Tae Kwon Do in Orlando. Needless to say, we are very proud of him. Taryn is five and very excited to be starting kindergarten in September.. She loves gymnastics and wants to be the next Kerri Strug! I'm a total golf nut. I play on a ladies league every Wednesday night during the summer. We do tend to get together in the cold months and "plan" for the golf season, so it does turn into a year round type of deal. Of course, I'm terrible, but I tell a great story! I still get to Boulder every now and then - my dad and one sister still manage to fight the traffic to live there! (You know you're getting old when you complain about the traffic!) I don't get to see my old buddies much, but looking forward to it!

CHRIS BROD

Spouse: Lorrie (Larsen) Brod Kids: Amanda, 14; Rachel, 8

I am a surveyor, working on the Environmental Impact Statement on Glen Canyon Dam on the Arizona-Utah border. I work on the Colorado River in Grand Canyon when I'm out in the field, and in Flagstaff, AZ when I'm in town. I take between 6-10 river trips a year to collect survey data to show changes in the riparian area of the river and to map vegetation, sediment, aquatic and terrestrial species habitat, as well as archeological sites. This has allowed me to work in one of the most amazing places on Earth, and to meet some of the most interesting and intelligent people I've ever encountered. It has also given me a huge amount of professional growth, as well as a few other perks, such as learning how to run a motor boat through some of the best white water in the world. I would say this is my major accomplishment, besides, of course, my lovely wife and wonderful children.

I am still interested in music, although I haven't been able to do very much with it. I do play a mean CD. My interests include the outdoors, reading, and teaching kids about science, surveying,

archeology, and the environment.

What have I been doing for the last 20 years? I have worked all lover the Western United States, working in energy exploration and surveying. I traveled extensively, seeing some of the best and worst country imaginable. I spent 3 years in Tucson, one in Napa, California, and have been in Flagstaff for the last 6 years.

I live in Lafayette with Mom, Dad, and Dolly (my toy box terrier), and Ike (our boxer). I received a kidney transplant in 1991 from a donor in Nebraska. I had been on dialysis (kidney machine) for 15 1/2 years - since our senior year in High School.

I work as a relief receptionist for the City of Lafayette. I am very active in my church. I belong to a social organization to promote education of young women, and also one to promote organ donation and transplantation. I have also traveled to many interesting places in the U.S.

I owe many thanks to the Lord, the medical profession, and many family and friends for making it possible for me to be celebrating 20 years of life since our time together at Fairview High School.

KAY (BROWN) TABERT

Spouse: Tim Tabert

Kids: Kyra, 12; Gina, 10; Nick, 4

Occupations: I am an accountant for Glotzbach & Ginther, CPA's located in Fowler, IN. My husband is a grain farmer raising corn, soybeans, and wheat. No, we do not have any chickens, cattle, horses, or hogs, but we do have two cats and a dog.

Interests: We enjoy traveling and checking out new places. Chicago and Indianapolis are only about 1 1/2 hours from home, so we check them out often. Kyra plays volleyball, basketball and softball. Gina plays softball. Both girls are taking piano and 4-H. And Nick is just into everything!

Major Accomplishments: Keeping our sanity while running two girls to sporting events, meetings, and

lessons, and having a toddler. I'm sure many of you can relate.

EILEEN (CANNON) HEALY

Spouse: Russell Healy

Kids: Heather, 16; Rebecca, 14; Jessica, 12;

Vijay, 10; Shefali, 8; Jonathan, 7

Russell is a CPA. He recently left his partnership with the CPA firm of Deloitte and Touche and is now Vice-President of Taxation at Hunstman Chemical Corporation . I am a part-time nurse in the recovery room at Primary Childrens Hospital, chauffeur, maid, cook, psychologist and all the other things that come with being a mother. I enjoy biking (as on a bicycle) in the summer and skiing in the winter. (Utah has better snow than Colorado). I am busy as a mom, especially with my three youngest children that we adopted. Vijay and Shefali both came from India at 14 months and 7 months respectively, and Jonathan is part Hispanic, part African American. We got him at age 4 1/2 from Los Angeles.

My funniest high school memory was when I was taking tennis lessons and two motorcyclists came

up past the tennis courts and through the school -- streaking.

LOUIS CARPENTIER

Spouse: Susie

Susie is pregnant with our first child Kids:

which is due on 8/29.

Occupation: Software Engineer at Storage Tek in Louisville, Colorado. Interests/Hobbies: Offroad motorcycle racing/riding, golf and skiing. Major Accomplishments: In 1995 I received a bronze medal for finishing the 69th International Six Day Enduro which was held in the USA for the second time since its inception. And around 8/29 any other major accomplishment will occur when Susie gives birth to our first child. Funniest High School Memory: During the election of Head boy and girl we decided to nominate one of my

friends noted for his heavy partying for Head Head. We plastered posters all over the student lounge saying vote for him as Head Head. Making the posters and watching people try to figure them out was pretty funny. But he never came to school that day (typical) so he did not get to see what we had done. The Past Ten Years: Racing offroad motorcycles, skiing a lot the first ten years after graduating from high school. The last five years I have been learning how to play golf (it's a frustrating sport) and working at Storage Tek to pay for my hobbies.

KARON (CHRISTENSON) JOHNCOX

Spouse: David Johncox

Kids: Trevor, 8; Logan, 6; Conor, 3

Occupation: Executive Assistant to the Director of the U.S. Environmental Protection Agency (EPA), National Enforcement Investigations Center (NEIC) in Lakewood, Colorado

Interests/Hobbies: Based on the simple fact that I share my life with 4 males, it should come as NO SURPRISE that sports play a big role in our family. You name it: baseball, softball, soccer, football, basketball, volleyball, swimming, hockey, skiing, golf, Lacrosse, etc. We either participate in or support the professional and collegiate teams that are in Colorado.

Major Accomplishments: I consider being blessed with a healthy, happy family, a beautiful home in Colorado, and a successful career with the Federal Government as major accomplishments.

Past 20 years: The Summer of '76 Barbara Woodley (Torres) and I went by car cross-country to the '76 Olympics in Montreal, Canada. It was a great way to celebrate our graduation!

I met my husband, David in December of '78 at Yocum's Studio in Boulder where I worked and he

was playing saxophone in a band, which happened to be my neighbors at the time.

In October of '79 David accepted a job with the USDA-Soil Conservation Service in Salt Lake City, Utah. So we moved to Salt Lake City and got engaged that Christmas. I also accepted a job with the USDA-Soil Conservation Service, which was the beginning of my career with the Federal Government.

In April of '84 we moved back to Colorado. David had accepted a job with the U.S. Geological Survey (USGS) and plans were in place for our wedding at the amphitheater on Flagstaff Mountain which took place on August 4, 1984 (long engagement).

Again, I was fortunate enough to land another Federal job, also with the U.S. Geological Survey

(USGS), as the Denver Federal Center in Lakewood.

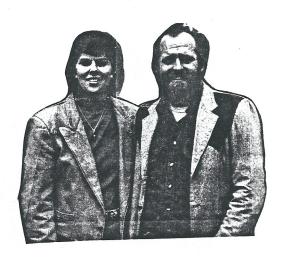

David and I started our family in 1988 when our first boy, Trevor, was born on June 9, 1988. Our second boy, Logan, was born on May 9, 1990. Our third and last boy, Conor, was born on July 27, 1993.

We have a beautiful home on Green Mountain in Lakewood, Colorado. My parents still live in Martin Acres in Boulder and both my sisters are living in Colorado - one in Longmont and one in Golden.

My husband is still employed by the USGS here in Lakewood. In Feb. of '91 I accepted a position with the EPA, NEIC in Lakewood as the Exec. Assistant to the Director where I am continuing my Federal career.

It's wonderful to be living in Colorado, the place I will always call home!

SUE CONNELLY

Owner, Little Dickens Antique Shop, Longmont -- Graphic Artist, Rabbit Hill Graphics, Longmont Restoring 125 year old home and property to turn it into a Bed and Breakfast 1985-1991 -- worked at Advance Printing, Longmont

Other Involvements: Longmont Chamber of Commerce, (Leadership Longmont Advisory Board, Leads Networking Group Co-Chair, C.E.O. Exchange, Leadership Longmont Co-Chair 1994), Longmont Symphony Orchestra (Cannon), Longmont Police Department (Co-Chair Programs Advisory Bd.), Twin Peaks Mall Fashion Advisory Board (Coordinator/Director/Announcer 1992-1996), Re-Elect Stan Johnson Campaign (Advertising Director 1992)

Education: University of CO, Front Range Community College, CU Div. of Continuing Education, St. Vrain Valley Extension Div. of Continuing Education

Interests: Draft horses, photography, reading, needle crafts, sports

LISA (CORDER) STRAWHORN

I lived and worked in Boulder until January of 1988. I then moved to Gilroy, California to work with my brother-in-law starting up his new company. It was during this time that I met my husband Bradley. He is from Australia. He was here on a work exchange program in Horticulture, through Ohio University. We were married in February of 1991 and had our first child, David, in December of 1994. University. We were married in February of 1991 and had our first child, David, in December of 1994. We are planning on more children, and hopefully I will be carrying another child by the time of the reunion.

We have two businesses that we run out of our home, one in the Horticulture field, and one Consulting firm. We get to do a lot of traveling because of our business (my son even has a frequent flyers card). I was able to visit Australia once before we were married, and twice since. We are currently in the process of purchasing part of my husband's family farm in Australia, about 210 acres, and plan to return to Boulder next year and build a house there. All in all, life is great, and I can't wait to see what the next 20 years brings!

JULIE (DAVIS) WOLFE

Spouse: Mike Wolfe

Kids: Ashley, 12; Sean, 11; Nathan, 9

I have been married for 15 years and have three fun and busy kids. We are very involved with all

three playing soccer and the boys playing baseball and basketball.

I have been a full-time mom up until this past year when I started working for Elk Grove Unified School District. I have been an instructional assistant for handicapped kids. Mike has been in the oil industry and is now working with cellular phones.

PATRICIA (DIMOND) MURPHY

Since the last reunion, my kids have grown up considerably, and I have gotten divorced. My daughter Ann turned 18 in early August, my son Michael is 14, and my son Thomas is 10.

I live in Louisville, and work (still same as ten years ago!) in the History Department at the University of Colorado, Boulder. My job title is Administrative Assistant III. I do word processing (everyday stuff to camera-ready books) and office support duties (including helping students).

At home, in addition to my "mom" duties, I like gardening and making crafts projects. I've also been studying Shudokan karate for a few years at Way of the Crane studio in Boulder -- I'm now a yellow belt.

My funniest high school memories have to do with the music department, and Mr. Jeffries, Mr. Revier, Mr. Kelly, and Mr. Gnojek. Marching band camp in August, practicing our moves in Broadway Show Choir, and batons impaled in the acoustic ceiling tile in the bank room come to mind!

BILL DOMBROWSKI CHERYL (WAIT) DOMBROWSKI

Kids: Stacy, 13; Viki, 8

Occupations:

Bill: I have worked for an electrical utility for the past 19 years as a power system operator.

Cheryl: I have been a restaurant manager for McDonald's for the past 20 years.

Hobbies:

Bill: Cars, motorcycles, photography Cheryl: Embroidery, quilting, antiques

Kids: Soccer

The past 20 years we have taken vacations to England, Sweden, New Zealand and Spain. We are currently restoring a Dodge Convertible.

DIANE (EIFLER) FREEMAN

Spouse: John -- married 15 years!

Kids: Andy, 11; Joel, 9

Occupation: Part-time secretary/bookkeeper

<u>Past 20 years</u>: Two years of college, then worked in the President's Office at CU for six years until my first son was born. I was a stay-at-home mom up until last year, self-employed typing Court transcripts for the Boulder District Court, and now am employed part-time at Miller Music Store in Longmont, Colorado. I am learning bookkeeping, which is something I have always been interested in, and I enjoy my job. John has always been musically talented, and now the boys are learning how to play instruments. Andy plays trumpet and Joel is taking keyboard lessons. (The only thing I play is the radio!) John is in Quality Control for a printed circuit board company in Boulder. We are active in our children's school and in the church we belong to, particularly in the jail ministry.

<u>Interests/Hobbies</u>: Our boys keep us very busy, and we enjoy watching and participating in all kinds of sports with them. John loves to bike-ride and does a 175 mile ride every year that benefits the Children's Hospital. When I have free time I like to walk, read or cross-stitch.

KATHY(EITEL) TAFOYA

Spouse: Ray Tafoya

Dustin West, 15; Jason West, 14; Kristina Tafoya, 11 Kids:

Occupation:

Sales -- Luggage Depot Home business -- Excel Telecommunications

RENEE ELLIS

Single, no children

Office manager for agricultural company for 8 years. Occupation:

LAURA (ELMS) SMITH

Spouse: Tony

Kids: Ashley (13) and Tyler (9)

Occupation: Corporate Meeting/Events Planner for StorageTek

Recent Accomplishment: Completion of BS Degree in Organizational Management from Colorado Christian University

Interests: Our family enjoys the outdoors and almost all sports. Our son is very active in soccer, but also plays basketball, baseball and of course, street hockey. As you can guess, we spend a lot of time at games or shuttling kids to and from practice. I also enjoy learning about antiques. When I have spare time, I love to spend the afternoon wandering through antique stores. Most recently I have taken up painting and have found it a great creative outlet -- I always thought I had no artistic ability!

What I've been doing for the last 20 years:

Following high school, I spent a couple of years at Colorado State University. In 1979 I moved back to Boulder, and began working at United Bank of Boulder where I met my husband Tony. In 1980 I left the banking industry and started working with my mother as a meeting planner. I continued to work with her until she moved her business to California in 1986.

Our daughter, Ashley, was born in 1983 and our son, Tyler, in 1987. We have made our home in Broomfield, where we are active with our church and, of course, all of the sports and school activities.

I am currently working for StorageTek. I spent several years in an internal consulting department

before moving to the meeting planning department as a corporate meeting and events planner.

In September of 1994, I decided to go back to school and complete my undergraduate degree. Although the process would have been much easier when I was 20, I thoroughly enjoyed my educational experience in an "adult learning" environment. I graduated this May with a degree in Organizational Management from Colorado Christian University. I received my diploma -- cap, gown and all -- and my kids were so proud! I intend to continue my education, but have promised my family that I will wait a couple of years.

NORA FALVEY

Single, no children...except my pets, whom I consider my children: Akita dog, named Tamashii, black cat, named J.R.

Occupation: Audiotex Manager at the Daily Camera newspaper in Boulder, Colorado since 1990.

My main interests now include mountain biking, hiking, traveling and shooting. I own my own home so I am interested in home things like maintenance, gardening and lawn work, and being with my..."children".

In the last 20 years, I have been married twice (Oh, well...). I have worked in broadcasting -- mainly in radio as an announcer, copywriter, and in production. I have lived most of that time in the Boulder area, except for a short stint in California in 1982-1983.

CHERYL (FERRIS) MASON

Spouse: Steve (Married Feb. 1990) Kids: Chris, 5; Kelsey 3 1/2

The last 10 years have gone by very fast. In February 1990 I married Steve Mason, a Lieutenant Commander in the US Navy. We have two kids. Chris will be 5 at the end of August and Kelsey is 3 1/2. The Navy has kept us on the move. We have lived in Medford, OR, Newport, RI, San Diego and Long Beach, CA, Everett, WA and now we live in Dallas, TX (but still Bronco & Buff fans). Throughout all of our moving around, we have survived the Northridge earthquake, the Seattle rains and the Texas drought. It certainly has kept us hopping. Every chance we get we find ourselves back in the Boulder area visiting family and old friends.

BRENT FINSTER

Spouse: Vicki Nall (Aspen Police Department

Sergeant)

Kids: Daniel, 13; Jeffrey, 10

Occupation: Communications Director and Deputy Sheriff

Interests: Travel, Computers, Photography, Life

I was supposed to spend my life working on a newspaper (at least that's what I was told when I was Editor of the Royal Banner). Wrong! While I went to CU, I went to work for Radio Shack in Boulder. A year later I was promoted to store manager and managed stores in Lakewood, CO and Laramie, WY.

I went to work for the Colorado State Patrol in Eagle as a dispatcher in 1979, but a year later returned to Boulder where I worked for the Boulder County Sheriff's Department for 9 years as a dispatcher and Communications Supervisor and Reserve Deputy. I lived in Lyons with my first wife, Kathy, for most of this decade. I served on the Lyons Fire Department...first as a firefighter and EMT and then as the Fire Chief.

I moved to the Aspen area in 1989 when I was hired as the Director of Communications for the Aspen Police Department and Pitkin County Sheriff's Department. I manage a department of about 25 9-1-1 dispatchers, supervisors, and technical staff. Although I'm a commissioned Sheriff's Deputy, my job is mostly administrative, so I don't get to "play" as much as I would like. The best part of my job is being involved in the management of incidents like fires, avalanches, rescues, etc. I'm on call for the Forest Service and BLM to set up communications systems foe large forest fires and a member of FEMA Urban Search and Rescue Team that responds nationwide on earthquakes and hurricanes.

Vicki, her kids and I have lived together for about 4 years and we look forward to a wonderful life together in the future. We get down to Boulder once a month or so to see family and friends.

Next time you are in Aspen, give me a call. (970) 963-1756

Hey, and by the way, it really hasn't been 20 years already, has it!?!!!

SCOTT FITZGERALD

Spouse: Debbie

Kids: Tyler, 6; Ross, 10 months

Occupations: Scott: Re-modeling subcontractor

Debbie: Owner of Longmont Title Co.

I've been living in Longmont for the past 10 years. My business and two sons keep my wife and I very busy. Debbie also owns a business, so we don't have a lot of free time (yet). We enjoy hunting, fishing, camping, and sports with our 6 year old, and always make time to play as hard as we work.

DIANA (FOLLOWWILL) HELFFENSTEIN

My husband of three years, Dr. Dennis Helffenstein and I work together in our business, Colorado Neuropsychological Associates, P.C. I am still a psychotherapist, but we now specialize in treating people with head injuries and other neurological disorders. Dennis is a neuropsychologist who evaluates and treats head injury and I do the psychotherapy for any Post Traumatic Stress Disorder reactions and loss and adjustment issues. We have offices in both Denver and Colorado Springs and employ 6 people at this time.

We moved to Colorado Springs 2 years ago and love it. I still sing, now with the Colorado Springs Chorale. We have two dogs and are still hoping for children, even at our "advanced" age! We love anything to do with the outdoors, especially skiing and hiking in the mountains. Travel continues to be a passion of mine and I've managed to get to many countries and most of our states the past twenty years.

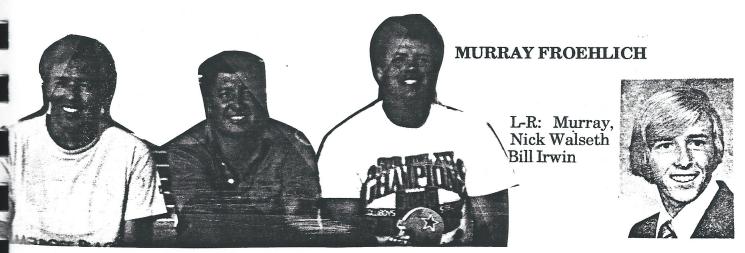

My funniest High School memory is of being at a football game our sophomore year and cheering to the fight song, fist raised in the air, and socking myself in the eye as I drew it back! How was I going to explain a self-inflicted black eye? Luckily, I did not turn black and blue, but it was good for a few laughs.

RICK FOSTER

I am currently living Southeast of Longmont on a small horse ranch with my wife of 9 years, Christine, a daughter, 5 years old, Shayla, and we think a boy "yipee" to arrive into our lives in October.

I am still working with Mobile Sports Medicine Systems out of Dallas, TX, traveling from coast to coast and border to border treating rodeo athletes and professional alpine ski racers. My wife (mostly) and I are still owners of CR Livestock and Animal Care, Inc. where we assist veterinarians with horse rehabilitation and transport livestock -- all we own are trucks and trailers! I am also employed with Staodyn in Longmont, which manufactures electrotherapy devices. Thank goodness my jobs overlap and I can piggyback much of my work! Most important I married a great person, wonderful wife, and super mom to keep it all together!

First off, I'm not here with a trophy wife (or any spouse) who will be bored. I haven't gone to a tanning booth for the past 30 days in a row and I haven't been on a diet for the last 6 months, unlike Dennis Ferris who strictly adheres to Slim-Fast and the Tommy Lasorda look. I don't take geritol (although some say the women I date can't live without it) or prozac and don't need rogaine quite yet - but

in 10 years I could be throwing Dentucreme in my shopping cart.

Oh, you want accomplishments, you say. I've never been married -- and don't have any kids (Sally has had enough for all of us, hasn't she?) However, I will be getting a new beagle puppy this month. How many of you can boast having a 250 cholesterol level and not be taking a dirt nap? I work part-time for TV Guide (my Christmas present last year was losing my real job as an editor for that company) so if what you want to see wasn't on, over the last five years, chances are I was the one who made your VCR tape a rerun of Married With Children instead of the Olympics. I have shot in the '70's a few times on the golf course occasionally. My boyish, youthful looks (that's a joke, OK?) seem to be a magnet to 50-year-old women with lots of ex-husbands, kids, and baggage. Now when you go out it's not mom and dad waiting up, it's all the kids waiting up with their noses pressed against the window, giggling. The games don't change, trust me.

Memories of Fairview:

Coming back from Christmas vacation my senior year and opening up my locker to an incredible stench. Locker partner Robbie Foster (where is he?) left his swimming clothes for the two-week break.

Mooning Mary Pierce and Sally Turley and Mary not being able to speak to me because she was laughing so hard.

Wearing white athletic socks (with black shoes) to Homecoming and hearing about it to this day about what a fashion statement it made. Michael Jackson later made this trend famous, so there Klingman. Speaking of Klingman, is he worth the price of admission or what?

CRIS (FULLEN) SCHOENBAUER

It is hard to believe it has been 20 years since graduation. So much as happened since then. I am married to my college sweetheart, Chris. This summer will mark our 14th anniversary. We have two beautiful daughters, Rachel (12) and Megan (8). They are both very active and healthy. After years of moving all over the country we settled down in Longmont 9 years ago. I am a physical therapist working for Boulder Community Home Care. I enjoy my profession and prefer working with clients who are primarily in the 60 plus crowd. I am an active volunteer in the school system, have dabbled in the local political scene, and I enjoy computer networking. My email address is: TDBW22B@prodigy.com. I'd love to hear from you. Life is busy as I am sure it is for all of us. I am also a cancer survivor of 7 months. 1996 has been a challenging year and I am grateful to be alive to enjoy each day. I am looking forward to seeing all of you again.

ERIC GARIN

In 1994 I married Tonia Dye of Shelbina, MO. We met while I was stationed in the military at Fort Leavenworth. At that time I was working for Tradoc Analysis Command. Tonia at that time was working for Security for the Department of the Army. We are now living in Lafayette with her 11 year old son, Brett, and two dogs, Aspen and Scottie.

I spent 7 years active duty Army, with the Rangers in Washington; Light Infantry in Hawaii, and on the General's Staff in Kansas. I got off active duty in 1991, where I spent 4 years in the National Guard Special Forces. I'm presently with the 220th Military Police. I work nights at King Soopers in Boulder and am also an EMT for Lafayette Fire-Rescue. I still enjoy running, biking and tennis.

AUDRA (GAVENIA) HARDERS

Since last we met, I've continued working as an Interior Designer in Denver and Colorado Springs, specializing in commercial space planning. In 1988, I moved back to Boulder and renewed an old friendship with Gary Harders (BHS '76). We married in 1989. Gary has gifted me with the wonderful appreciation of the simple things in life. We hunt, we camp, we spend as much time as possible enjoying each other and our family (more about that shortly). After having passed my certification exam for Interior Design, I accepted the position of Design Director at Pear Commercial Interiors in Boulder. In 1990, our daughter, Kara was born, and since that time I've had the privilege of staying home with the children (our son, Martin, was born in 1992). Now begins my new career of motherhood and the opportunity to pursue my ambitions of writing romantic fiction. Who knows, maybe by our 30th reunion, I'll make the NYTB! In a nutshell, life is good.

I have lived in Boulder since graduation (all my life actually) and own my own business (custom home builder/snow removal contractor). I have been married for 15+ years to my wife, Linda, and we have two daughters, Chelsea, 10 and Candace, 8.

Our favorite "things to do" include softball, camping and all water sports as we live in or on the

water in the summer at Baseline Lake, Lake Powell, Bonny Reservoir and others.

The funniest moment I remember from school is how people lined up out front on Greenbriar and egged cars that would come up from BHS on the day of the annual football game. Needless to say, most of the classes that day were half empty. That was when we were in 10th, and they stopped it the next year.

BEVERLY (GIBSON) SEARLE

Our senior year in High School I graduated early and attended one semester at Rick's College in Rexburg, Idaho. I came back for the graduation ceremony. I got a job at Storage Tech and worked for 1 1/2 years. During this time I took evening classes at Community College of Denver. Then, I went back to Rick's College for the 1977-78 school year. It was during this year that my roommate introduced me to her cousin, Craig Searle, from Burley, Idaho. We were married in May 1978. We moved into our house that day and we still live in it. Craig is a farmer/dairyman. We raise potatoes, sugarbeets, hay, beans, wheat, barley, corn, milk cows, and kids - we have 7. Holly 17, Mary 15, Julie 12, Wendy 10, Shelly 7, Mitchell 5, and Chad 2.

We have been able to travel a little with Craig's involvement in Farm Bureau and American Sugarbeet Growers Assoc.

I have been busy as a 4-H leader, PTO/PTA leader, room mother, and with community activities and church activities.

I am a stay-at-home-mom, so my days are filled with my children, their activities and their happiness.

My days at Fairview were fun and filled with lots of growth. I look back and reminisce about how great it was to be a teenager and have those experiences.

SUE (GILLAND) LATHROP

Spouse: Mark

Kids: Parker, 4 1/2; Emma, 2

We live in the Vail area and really enjoy mountain living (even though it sometimes \underline{snows} on the Fourth of July!)

My kids are my full-time job; my part-time job is interior decorating. I have my own business so I can be very flexible about how much (or how little) I work.

Mark and I are really looking forward to a trip to the South of France this September -- without kids!

As far as high school memories I remember one night when our car-full of gals tried to drive across Boulder Creek to a Kegger on the other side. It was April and the creek was very full; the car got stuck in the middle. We all got wet (and frozen) up to our waists when we got out to push the car. We had to hang out in McDonald's restroom for about an hour trying to get our jeans dry under the blow dryers. We had told our parents we were going to a movie and they would wonder if we came in all wet. We never made it to the party!

MARY (GOULD) SANDERS

Spouse: Matt Sanders

Kids: Danny, 14; Maggie, 12; Kyle, 10

Occupation: Full-time parent, part time Facilitator for World of Difference Program, Volunteer for the Gathering Place, Junior League of Denver, and St. Anne's School.

MARK GRANZOW

Kids: Jessica Rae Granzow, 2

Occupation: Morning Show Host at KCMB Country Radio and owner/operator of Stardust Studios, an audio production company.

<u>Hobbies</u>: Play guitars, drums, and keyboards, sing and paint a little, enjoy motorcycling, snowmobiling, traveling, and hanging out at my funky cabin in the Oregon mountains.

Major Accomplishments: STILL ALIVE!

Memories: Streaking, partying with the bad boys, Alan Koran for Head HEAD, cheerleaders grinding to K.C. & the Sunshine Band's "That's the Way - UH HUH, UH HUH - I Like It" at the big FHS vs. BHS basketball game, keggars up at the "meadow" in Boulder Canyon, and the infamous Rocky Mountain Bi-Centennial Bong-a-thon... we lived to tell.

Past 20 years: Searching for the Secret of Life while accumulating and disposing of material wealth.

SHERILYN (GREER) CHISHOLM

Spouse: Mike Chisholm Kids: Matthew,8; Chad,5

After High School I received an Interdisciplinary Bachelor of Arts degree in Fine Arts/Communication at Abilene Christian University in Abilene, Texas. I enjoyed doing a weekly cartoon for the University newspaper. After college I worked at Estey Printing Company in Boulder, Colorado as a graphic artist and illustrator for over seven years. Currently I am a full-time mother/homemaker, but enjoy doing artwork on a regular basis for pleasure, friends and church. My husband's employment at a jet aircraft repair company brought us to the Pacific Northwest, to Marysville, Washington, a small community north of Seattle. I've learned to enjoy gardening in this wet climate and the day-to-day battle against 5" slugs!

Occupations: Amy - B.S. Medical Technology

Mark - B.S. & Masters in Electrical Engineering

MARK DAVIS AMY (GULLEKSON) DAVIS

Married 1980

Kids: Trevor Davis, Crosser Davis,

both age 13

We have been working and raising kids. We all four play squash.

JEFF HALE

Spouse: Julie (FHS class of '78)

Kids: Matt, 17; Jenni, 15; Carissa, 13 Matt (Senior) and Jennie (Sophomore)

both attend Fairview currently.

Occupation: Automobile sales

Major Accomplishments: Married to the same girl for 18 years and lucky enough to own a home in Boulder.

Funniest High School Memory: The two seniors streaking through the student center on motorcycles our Sophomore year.

The Past 20 Years: Have been spent in and around Boulder in automobile sales, training, and management. Have tried to be involved in the kids athletic, scouting and other endeavors. Have spent most the money I've ever had on travel and fun.

KATHY (HARRIS) GALLIHER

Spouse: Mark Galliher

Robert, 14; Jonathan, 14; Laura, 11; Kids:

David, 9

I am an RN and work as a case manager. I also have my own company which does consulting and training in managed care. Mark is a lawyer. We like to scuba dive and are currently spending a lot of time with the local high school band boosters since we have two freshmen band members. Also, like most parents I spend much of my free time running kids to many activities. We also are involved with our church activities. We get to Boulder 1-2 times a year.

CYNTHIA HARRISON

I have stayed single all these years as I have been busy traveling, and moving back and forth across the country, pursuing a career in Special Effects Makeup for film and television. I have been living in Los Angeles creating monsters, aliens, characterizations, and blood and guts. I have worked on several well-known films such as Bram Stokers Dracula and Mr. Saturday Night, as well as other not-so-well-known, released internationally, horror flicks, and loads of television effects as seen on Star Trek programs. I currently reside in Western Michigan, (thanks to the appeal of a Mid-west man), missing the great weather and movie industry of L.A., but keeping quite busy with advertising productions here in Grand Rapids, Chicago, and Detroit. I will be working this summer on an independent film concerning the Civil War, that is hoping to catch some interest at the Sundance Film Festival.

I want to mention how much fun I had at our 10-year reunion party. It felt as though I was in a room full of friends. I have been looking forward to our 20-year for the same reasons, but sadly will not be able to attend. Although disappointed to miss the reunion party, I am pleased and excited to report that it is because I will be betting married that Saturday evening! I planned the wedding in Boulder for the weekend of the 17th, months before knowing about reunion plans, so strangely, I will be in town, I'll just be really busy! ha. I'm hoping that I will be able to run into friends somewhere along the way during the long party weekend.

My funniest memory during Fairview was the day I wore a powder-blue afro-style wig to school for no apparent reason. I did it as a "kind of" wacky fashion statement, but was surprised and startled at the reactions from "so called" friends, who saw me and walked the other way, to teachers that laughed or others that threw me out of class. Perhaps it's inappropriate to say, but a low-voiced comment between two guys, struck me the funniest, "It would take balls to do that!" I guess that sums me up! ha.

VALERIE (HENZE) RINE

Spouse: Joe Rine Kids: James, 19; Mike, 15; Heather, 11; Travis, 3

Occupations: Valerie -- Professional care-giver
Hobby -- making crafts
Joe -- Heating installer
Hobbies -- Wood burning, volunteer fireman

Past 20 years: Raising kids. Moved from Colorado to Arizona to Wyoming to Colorado.

I've been married to Pat Mead for 8 years. We have two kids: Caeli is 7, and Kevin is 4. I'm now the Senior Court Counsel for the Supreme Court of the Republic of Palau, a small island nation near the Philippines. We spend much of our leisure time here snorkeling. The tropical fish and coral here are

My funniest high school memory is dancing to the Rolling Stones's "Sympathy for the Devil" in a circle of friends who were a bit too inebriated during Roger Miller's New Year's Eve party our senior year.

After high school, I went to Colorado College and then to C.U.'s law school. In '83 and '84, I was a law clerk for Chief Justice Luis Rovira in the Colorado Supreme Court. In '84 and '85 I taught American law and English in Pamplona, Spain. I then came back to Colorado and worked in poverty law for two years in the San Luis Valley. I moved to New Orleans in '87, where I worked as a Staff Attorney and a supervisor for a federal appellate court. I was married and we had both of our kids in New Orleans. We moved to Koror, the capitol of the Republic of Palau, in September 1995. Watching the development of a new nation, and participating just a little bit in that development, has been a wonderful experience. We will probably be returning to the U.S. in late '96.

BONNIE (HOLDERBY) SABATKA

Spouse: Jim Sabatka Kids: Sarah Beth, 10; Brooke, 8

Occupation: Reservations Sales/Continental Airlines

Interest/Hobbies: Tennis, travel, Volunteer at Elementary school

Funniest High School Memory: "More serious than funny; unfortunately." Last 20 Years: 1976-1979: Attended Greeley (UNC) (Two quarters)

Attended Phillips U. in Oklahoma (Two semesters) (Couldn't seem to get it right.

Attended Arapahoe Comm. College (2 semesters) (Fashion Merchandising) Attended Parks Community College (6 month program) (Travel and "What do I want to do

Transportation)

Attended CU in Boulder (1 semester)

(Kept having this recurring dream that I forgot all about my Mythology class until suddenly it was time for the final. It was a dream, wasn't it!?)

Moved to San Francisco for a year. ("I can make it on my own!" Time to break away 1979-1980: from the folks.)

1981: Moved back to Boulder. Got job with Continental Airlines.

Feb. 1983:

with my life!?)

Transferred from reservations with Continental to work at airport as a Gate Agent. June 1994: 1985-1987:

Started family (2 girls) and worked part-time at Continental.

1989-1992: Mom. Wife. Back to CU in Boulder (part-time) for degree in Psychology. (Vowed to get it

right this time. ("What happened!???") Worked part-time at Continental. Take a breather!) Raise kids. Work part-time at Continental. (Bought home in nice 1992-1994:

sub-division in Westminster. (Finally feeling "At home at last!")

1994-present: Continental Airlines downsized in Denver. Layed off at airport. Transferred back to reservations. Work full-time as Reservations Sales Agent. The kids are a little over

extended this summer and running us ragged with: dance, piano, swim team, basketball camp, church camp, cross-stitch, sewing class, reading classes, Waterworld, Elitches, Sea World in San Diego, Disneyland in L.A......Phew! But aren't' we having fun!!!

RENEE HOLDREN

Dog: Winnie, a 180 lb. Newfoundland Baby: Nephew Kelty

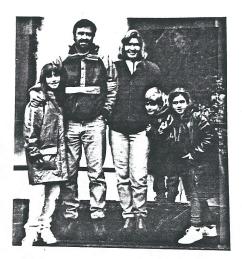

Interests: Raising Newfoundland, training, going to dog shows, and karate

Hobbies: Carving, adventures, playing, hiking, walking, attending Rockies games

Accomplishments: Running business Past 20 years: Attending school

High School Memory: Pottery Assistant. Needed to make clay by using old broken dried pieces. We would use a short paddle, the other assistant would pitch to you and you would try to hit it in the big vat. Most of the time it would shatter into chunks, sending pieces everywhere. Sometimes you would miss hitting the pieces -- more times than not, we hit each other. It was a creative way to get the job done. The clay was always ready on time.

TOD HORNBY PATTY (DRAIN) HORNBY

Patty and I left Boulder in 1981 and moved to San Diego so that I could be closer to Los Angeles (without having to live in that pit) while I pursued a career in music. When our first daughter was born in 1986, I left the music business to work in an industry with hours and an an atmosphere more conducive to family life. I joined Stanley Steemer Carpet Cleaner as a manager. Patty left her job as an analyst with Semcor, a San Diego defense contractor, to stay at home with the kids. We grew Stanley Steemer of San Diego to be the largest privately owned carpet cleaning company in the United States, with over 150 employees and 55 cleaning vans. I left Stanley Steemer at the end of 1994 to try something new. I joined Rescue Industries (Rescue Rooter) and moved to Portland in 1996, where I manage the Portland Service Center. Patty continues as a stay-at-home mom with our three kids. Mallory is 10 and is in 4th grade, Marissa is 8 and in 2nd grade, and Eric is 5 and in Kindergarten. We live in Lake Oswego and are still adjusting to rain - LOTS OF IT!

KIRK HUFFORD

Commercial Insurance Underwriter

Hobbies: Golf, Jet Ski

Funniest High School Memory: I graduated without studying.

 $\underline{Past\ 20\ years}$: College, grad. school, working in the insurance industry. Resided in Phoenix, Los Angeles, and San Francisco most of the past 20 years.

KATHLEEN H. JONES

Spouse: Marty J. Reibold

Kids: Son, Robin H. Reibold, 3

Dog: Oban, 8

Occupation: Newspaper reporter, presently working on a master's degree in journalism at CU-Boulder

JOANN (JORDAN) DANE

Still loving Colorado. Happily married to Michael Dane since 1990. Two children: Jordan Michelle, 4 yrs., Brendan Michael, 2 yrs.

We are in business together. Our corporation, Dane Ent. Ltd. owns Truly Julie's (soon T.J.'s) soups and sauces. We manufacture fresh vegetarian products for grocery stores.

LISA (JUNGGREN) WHITTEN

Spouse: Karl Whitten

Kids: Jennifer, 13; Michael, 10

Occupation: We are owners of a residential design firm in Boulder called A & E Graphics. We have owned it for two years now and are still married -- even though we work together. Our major forte is custom homes, though we do commercial work and remodels. Karl is the designer and Lisa runs the office.

We have been married for 16 years and were high school sweethearts. Hobbies: We love to water ski in the summer at Baseline Lake. Karl on the Air Chair, Michael kneeboarding and Jennifer and Lisa just skiing. We try to go to Mexico once a year in the winter (hopefully without the kids!) and then off to Lake Powell in the summer.

Funniest High School Memory: If is funny now, but in High School I hated it -- Walking across the student

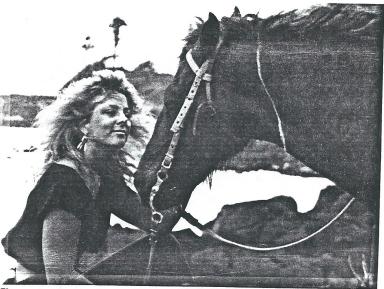

center and someone from the balcony calling down to "Big Foot".

Past 20 years: Working hard and playing even harder. We have only moved three times in our marriage. Once a new condo in Boulder, then to Niwot to a new home and then we built our current home in Boulder. It is hard to see our children going to the same schools that we attended. It is great being so centrally located, work and schools are very close.

We got to go to Europe for 2 weeks about 8 years ago. We did the usual touristy things in London

and Paris.

Lisa got to swim with the dolphins in the Keys about three years. Since I am a major dolphin lover this was ecstasy. I had one dolphin laying against my belly and two on my back. I can't wait to go back and do it again. I think I will treat myself on the big 40 birthday! Boy, we are all getting close to that time -- ugh!!

VERENA KASEMIR

I've never married or have any kids -- well, I have 2 horses. They're just like kids. After high school I moved to Las Vegas for 6 months, working at the Fisher Pen Co. Then I moved to L.A. and worked at a Country Western bar, tending bar. I met a stunt man, got involved, almost married, but never went through with it. I worked on a couple moves in the 4 years I was with him. I stunt doubled for Katherine Ross in a western called "The Shadow Riders", and also doubled for Melissa Gilbert on "Little House on the Prairie". I moved back to Coloradan '82. I went to Europe for a month -- traveled through France, Germany, Italy, Switzerland and Austria. How exciting! During high school I took cosmetology through Vo-Tech. When I came back from California and Europe I worked at Es Lande, 16th and Pearl St. Mall (4 years). It was great to be back in Boulder again. I met a man, moved up to Walden, and was with him 3 years. I helped him with his guide and outfitting company -- 25 horses -- took guests out riding, overnight camping and fishing. Come Winter we moved to Vail -- might as well work the resort. It was a great time, but it did come an end. I moved to Hawaii. I've been there the past 8 years -- the first 6 months on Oahu, then I was offered a job on Kauai. Kauai is the most beautiful place I've ever seen! It's like the best of both worlds! I work at the Hyatt Regency Kauai in the Spa/salon doing hair and nails 4 days a week and play for 3. Kayaking, scuba diving, horseback, hiking, boating/fishing, and, of course, beaching. I went to Japan for 3 months and worked for a riding stables, teaching and taking Japanese tourists on trail rides. I learned some Japanese. It's good to be back in America.

AMELIA KLEMME (AMIE)

Spouse: Timothy Clark

Kids: Morgan Rose Clark, with another child

"on the way"

Occupation: Attorney

Interests/Hobbies: Cross country skiing; classic movies; gourmet cooking

Major Accomplishments: Surviving law school; having a wonderful family

<u>Past 20 Years</u>: In the past twenty years, I have been to college, got married, survived law school, passed the Bar, got divorced, practiced law, got married (again), continued to practice law, had a child, continued to practice law, have another child "on the way" and continue to practice law.

LIZ (KORN) HAFLER

I have one child, Jarred, who is now 8 and wants to be a scientist! He actually loves school! I am divorced. I work at Galileo International in the Corporate LAN Services department. I always look forward to seeing anybody and everybody from FHS. For the past 20 years I have been enjoying life, one day at a time! Call me sometime. (H) 340-4187 (W) 397-5558

KEVIN KUDRNA

I am married to Carrie Snyder and have two daughters Kiley and Jordan. Carrie is also a FHS graduate, class of '81. Kiley is six years old and in Kindergarten at Nativity of Our Lord School in Broomfield. Jordan is three years old. I graduated from Western State College of Colorado with a degree in Business, class of '81. I am employed at Ball Aerospace and have been for the last twelve years. Currently I am a Subcontract Administrator in Classified Programs. I also have a certification in Government Contracting from the University of Phoenix and am a Certified Purchasing Manager. We have recently purchased a new home and live in Broomfield.

DEBORAH (LAENEN) MCCARTHY

I attended CU in Boulder and received a Bachelor of Environmental Design in 1981. I had several architectural jobs and settled into custom home design early in my career. I went out on my own in 1988 designing for several builders around the Denver Metro area. I even designed some Parade of Homes houses. I got married to Mike in 1989 and bought a house in the Applewood area of Lakewood. I then incorporated my company, Laenen McCarthy, Inc., and worked out of my home. We had a daughter in 1991, Madeline. She will be beginning Kindergarten this fall. We just had a son, Kenneth Robert, this April. I am working out of my home still part-time. Mike and I enjoy remodeling our home and traveling when we can get away. We were lucky enough to go to Australia and New Zealand last year and are planning a trip to Holland this fall for a family reunion of mine.

SHARALYN (LAPOINTE) MITCHELL

Spouse: Kenny

Kids: Emily, 11; Blake, 5; Brad, 4

(My absolutely wonderful kids!)

I am a homemaker and do some child care. I worked at a veterinary clinic previously. I am also a brain

Funniest Memory: Going on a date with Mark Sherman and realizing he didn't know my name, and, I wouldn't tell him. He had to ask several other kids to finally figure it out.

P.S. I'd <u>love</u> to hear from old friends!

DAVID LATORRA

Spouse: Nancy LaTorra (Married 5 1/2 yrs.)

Kids: Jaimee, 3

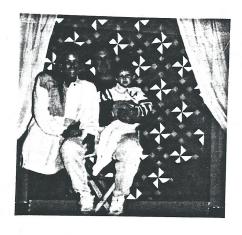

Occupation: Local Area Network Specialist & Administrator (computer field)

Nancy, a CPA, is currently home raising Jaimee while running a small accounting business from home.

Interests/Hobbies: Biking, golf

KATHY (LAWRENCE) SMITH

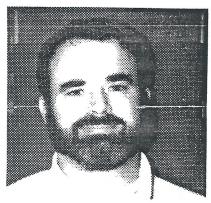

Well, since our last reunion, which was a renaissance time for me as I had just gotten divorced from a marriage of 8 1/2 years and began studying at the University of Colorado at Boulder in the Music Dept. ---

I did graduate in 1989, but from the BFA Theatre Performance Dept. with a BFA in Theatre Performance. I was to go on to Law School, but was persuaded by Chris Smith to move up to Steamboat Springs to Snowboard and help run Powder Pursuits Snowboard Shop which belonged to he and his partner. Well, one year later Chris asked me to marry him and his partner and he divorced.

I became Chris' partner in business and in marriage in June of 1990. We had been on many scuba diving adventures together and decided it was time to add to the family just as our business had been adding to our living! We conceived a set of identical twin boys, Bradee Alexander and Logan Christopher, but Logan died in the 7th month and we were induced to deliver both boys on April 22, 1993. Bradee first, a teeney 3 lbs but strong and a 2 lbs Logan, very still. We miss him terribly, but we have special memories of him to treasure. As you can imagine, this time of year, around Bradee's birthday is still a very emotion filled time for us, but we are great and so is Bradee! Bradee will be three years in just three weeks and the business has been very successful, and Chris and I are very happy! (Well, we all have our moments...you know!)

We are leaving on my annual bonus, which I get every year for putting up with the snow. This year's bonus is to Fiji for 3 weeks and Australia for 3-4 weeks to scuba, fish, check out 80 ft. waterfalls, totally mellow in silence on the beach, and be the tourists that we deal with all winter! Yes! Boy do I hate snow this year and we've had 26 feet -- 21 ft of that was in January! Sun, Scuba and Surf...Soon!

TOM LEIPER

What I have done for the last 10 years was not much. In September 1990 I was the liaison to the Saudi Arabian Government for Metrology at Dhahran National Laboratories when Iraq started some trouble in Kuwait. I had lots of fun helping the build-up of the allied forces. I was recalled to Head Quarters, Riyadh Saudi Arabia, the night the bombing campaign (Desert Storm) started. For the rest of the war I was the supervisor for a U.S. Air Force Metrology laboratory. I provided meteorological support to all allied force in the theater. When it was all over I got all kinds of neat decorations from the Saudi, Kuwait, and US governments. I guess I was some kind of war hero. After that I returned to Tucson (Davis-Monthan AFB) to a nice quiet life.

The Air Force discovered that I had a degree and wanted me to teach. I said no, they said yes, next thing I know I'm back in Colorado (1992) teaching Jet Engine Physics and Pressure principals. I got my teaching certificate and certified here in Colorado. Just think, I could be teaching your children (A scary thought).

In September 1994 I retired from the Air Force at 18 years with full benefits. Soon after retirement I start working for Physical Electronic (HQ located in Eden Prairie MN) as a field Engineer. I work with Time of Flight Secondary Ion Mass Spectroscopy (TOF SIMS) and X-ray Photoelectron Spectroscopy. The travel from coast to coast and boarder to boarder got to me so I quit to join up with Hewlett Packard in June 1996 so I could be with my family.

I'm still married to Debbie Hart of Aurora (18 years). She is a substitute teacher looking for a full-time position. Our children Allen (17) and Christein (15) go to Overland High School. Allen Lettered in Lacrosse and Cross Country 3 times. Christein plays in the Marching Bank and also plays Lacrosse.

CYNTHIA (MANGUS) LACEY

Spouse: Christopher Lacey

Kids: William Lacey, 15 (goes to Fairview);

expecting a baby girl in August

I own my own business -- I do process service, investigations, and legal research for local (Metro area) attorneys. I run the business from my home, and just basically "bark orders" at people who work for me. My husband works with me. Also he's my "out in the field guy".

I have lived in this area (for the most part) since high school. I didn't really start working until I was 25 or 26. I was a insurance agent for several years (and hated it), so I opened my own business.

My funniest High School memory was of several young men "streaking" around my parents house, and then frantically pounding on the front door (to be let in) because a sheriff had pulled into the driveway. I had to idea how little white "buns" glow in the headlights of a car! I'm not sure if name mentioning is fair, it might get someone in trouble. We will say -- good student -- athlete --...

As far as hobbies or interests -- it's my family. I am a HOMEBODY! I love to cook. We ride bikes, camp and go for the occasional trip. We went to Puerto Rico for Christmas this past year. What a place!

DOUGLAS MARSTON

Following graduation from High School, Douglas Marston obtained a B.A. from the University of Colorado in 1979, majoring in Political Science and Russian. In 1982 he graduated from the University of Colorado School of Law and was admitted to the bar in the same year. Doug spent the next ten years in private law practice in Alaska and Colorado, engaging in civil litigation. In 1992, he returned to Colorado, where he was employed as an assistant county attorney in Morgan County, Colorado (Ft. Morgan). As an assistant county attorney, he devotes most of his time prosecuting dependency and neglect (child abuse and neglect) cases on behalf of the Morgan County Department of Social Services.

Doug has continued playing his French horn, and he presently is a member of the Brush-Ft. Morgan Community Band and the Bijou Brass. He is the president-elect of the Ft. Morgan Rotary Club. Doug has

remained single.

KEN MARTINEZ

Spouse: Terri Martinez Kids: Marissa, 4

Occupation: Strategic Planning Manager

Quantum Corp.

Interests: Mountaineering (hiking, climbing, etc.), mountain biking, snow and water skiing, fly fishing, Scuba diving

Accomplishments: Married for ten years, alive, happy, healthy and staying out of trouble

Can't think of anything funny; too long ago!

Past 20 Years: Working, working, playing and raising a family

JILL (MERRING) TENNYSON

Spouse/Kids:

Divorced, one daughter,

Rachel, age 5

Occupation:

Computer programmer

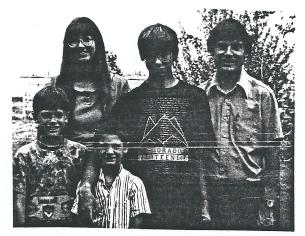

Interests:

Quilting, scuba diving

Major Accomplishments: Staying employed, several trips to the Cayman Islands, raising a terrific (if I say so myself) daughter.

High School Memory: The bright orange '65 Comet Amy and I used to drive around in.

The Past 20 Years: Still working on a college degree, trying to make the most out of every day, and having fun doing it!

ERIN (MICHEL) SCHUTT

Spouse: Roy Schutt (from Boulder High!) Kids: Willy, 15; Sean, 11; Timothy, 7

Since college my main job has been raising three wonderful boys, while still studying Spanish and Hebrew a little on my own, and enjoying some gardening as well as caring for various kinds of critters. And I've had a couple of short stories and poems published.

I currently work as a "Lunch Lady" at a nearby elementary school, where I claim all 170 kids as my "own", and I play trumpet in the Loveland Concert Band.

SAM MOORE

My wife's name is Cindy. We have two children - a boy, Cade, age 9, and a girl, Kendall, age 6. I am a State Farm Agent. I have been selling insurance for the last ten years. Before this I was a landman in the Oil & Gas business for five years. I met my wife when I was transferred to Lubbock, TX. We were married twelve years ago.

I attended the University of Colorado and graduated May 1981 with a degree in Mineral Land Management. This was a degree from the business school.

My interests include skiing with my family - we have a condo in Frisco. My son is very involved with Jr. hockey, and my daughter is doing dance and ballet. My wife has a kids clothing business out of our home.

The thing I remember most about High School is partying with my friends.

Occupation: Partner, Nahman Parsons, IIc Interests/Hobbies: Golf, Computers, Kid's sports Major accomplishments: See Wife and Kids above!

VANCE NAHMAN

Spouse: Kathy Nahman (Cherry Creek, 1978)

Kids: Kelly, 10; Andy, 9; Haley, 7

<u>Funniest High School Memory</u>: Senior year, riding in Tom French's father's new Aspen. Greg Herbert (front seat), Mike Fink (back seat) and I are throwing firecrackers and bottle rockets out of the windows on Broadway (you didn't ask for *smartest* memory!). A spark lands in Mike's bag of fireworks and EVERYTHING starts to explode! Tom pulls off the road and we jump out while it finishes. When the smoke clears, Mike's pants are nearly burned off of him, I'm bleeding out of both ears, and there's enough damage to the new Aspen to cost each of us a couple hundred. A lot funnier now than back then! (Sorry

In the past 20 years I spent four at CU getting a BSEE. The next five years doing logic design and applications work in two big companies and one smaller start-up. A move to northern California preceded 10 years of Viewlogic Systems, a start-up in Design Automation. I moved into field sales for six years and became a sales Vice President after a successful IPO in 1991. My Viewlogic career concluded as the General Manager of the High Level Design group, managing four acquired companies in Northern California.

In May of 1995, my partner and I formed Nahman Parsons, IIc, a sales training company focused on competitive, high technology selling. We work with sales and marketing groups of high technology companies to improve the effectiveness and productivity of their selling forces. Our company offers a combination of sales and marketing training and consulting to companies in competitive markets with difficult-to-sell products and services.

RICK NELSON

Spouse: Barbara Nelson Kids: Jessica, 8; Kyle, 5

I worked at IBM for 18 years in Houston, TX on the space program. In the era of corporate cut-back I was laid-off and went to work for Brown & Root. I was sent to Bosnia in December of 1995, and worked there until the end of July, building army bases. Now I am back in Texas -- bought a boat and am taking some time to relax!

PAULA (NESTLER) NYMAN

Spouse: Kris Nyman Kids: Daughter, Annika, 7

Interests: Weaving, flute playing

GREGORY NIESEN

Single

Occupation: Consultant/Financial Analyst, CFA (Chartered Financial Analyst Hobbies: Hiking, Camping and Cooking

I completed an undergraduate degree in Chemical Engineering from the University of Colorado at Boulder and the NROTC program. As a result, I was commissioned as a Naval Officer and served six and a half years with the U.S. Navy on board nuclear powered cruisers. I supervised the ship's nuclear reactor operations and maintenance, and one of the ship's 50 men divisions. On my second ship, I was also involved with all forms of at-sea-replenishment, including helicopter landings and landing safety. Through the Navy, I was able to visit about 25 countries and five continents.

After, leaving the Navy, I returned to the University of Colorado at Boulder and completed a Master of Business Administration Degree in 1989. I worked for a financial counseling firm for three years, providing personal financial advice to Executives of Fortune 500 companies. I have since begun a consulting practice in the area of computer generated financial solutions. I have completed a professional designation program as a Chartered Financial Analyst.

I am currently taking a break for the summer and vacationing in the Seattle area, with a special trip to Hong Kong. I hope to enjoy the diverse outdoor activities in the Seattle area, as well as an opportunity to conduct some financial research I have been wanting to complete for a couple of years.

KAREN (NISTICO) BUSH

Spouse: Bob Bush

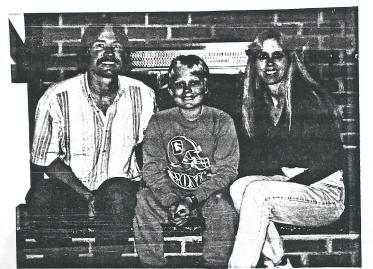

Kids: Megan (1-8-94), Amanda (9-22-95)

School: University of Colorado - (B.S.) Comm/Bus. Regis University - (MBA/IS) Masters of Business Admin. Information Systems Broker Licensed

Current: I plan to work out of the home. I am currently pursuing a software engineering certificate through Micro Soft Corporation.

Occupation: I worked for Colgate Palmolive in sales and marketing out of college. I went to work for SmithKline Beecham Pharmaceuticals in Government Affairs/Sales. However, I am currently doing the most important job in the world - Mommy!

VALERIE (NEWCOMER) WEST

I've been married to a wonderful man, John, a 1973 Fairview graduate for almost 14 years. We have a son, Jesse, who is 11 and will be starting middle school this fall. We live in Longmont. We like to travel. Twice we have been to Disneyworld and Hawaii, and about 3 times we've been to

Las Vegas and Southern California. In the summer we like to go camping.

I've been working for the same restaurant owner for 17 years at two different places, being a manager and Head Waitress. I was at the Golden Buff Restaurant in Boulder for 5 1/2 years and for 11 1/2 years I've been at Rev. Taylor's Restaurant in Niwot where the delicious Barbecue dinner was catered from. I hope to see many of you out at Rev. Taylor's to sample our other good food and homemade desserts.

I've been a cub scout den leader for the last 3 1/2 years. It's been a very rewarding experience. In my free time I like to spend time with my family. I'm into Aerobics, roller-blading and bike

riding. After a good workout I like to relax in our hot tub.

DOUG NICKEL LESA (CORWIN) NICKEL

Russ, 17; Bethany, 14 Kids:

Occupations: Doug: Purchasing Manager

Lesa: Financial Coordinator (Administrative Assistant)

Interests and Hobbies: Skiing, race-walking, traveling, Rockies baseball

Major accomplishments: Fantastic children

Lesa: Past 20 years: Working for Larimer County, then City of Fort Collins and now U.S. Engineering in Loveland, CO; divorce and remarriage; parenting my two children; traveling the U.S. and Europe.

DIANE (OLSON) CLARK

Spouse: David Clark Kids: Sarah 9; Rachel 5

Occupation: Currently I'm a stay at home mom. Prior to baby #2 I was a college Business instructor at a California Community College.

Major accomplishments: M.B.A. (University of Colorado); raising two kids!; teaching college level courses

D'ARLYN C. (OPPEBOEN) REED

Spouse: Dave Reed

Kids: Larissa Fromme, 11; Kelsey Fromme, 10; Grant Reed, 8; Jenni Reed 5

Occupations: D'Arlyn - Engineer

Dave - Computer Consultant

Accomplishments: 1. Pilots License

B.S. E.E. University of Arizona 1981
 M.S. E.E. University of Colorado 1989

PAM (PAHL) KOMHYR

Spouse: Brian Komhyr Kids: Amy, 14; Kyle, 10

I am a business owner in Boulder. My husband has been with StorageTek for 15 years.

GARY PAUKERT

I've been happily married for 12 years now to a raving beauty, (Well, she's gonna read this), from Saskatoon, Saskatchewan; the lovely and charming former Barbara Penner. We have one child, Katherine, 4-1/2, who I can say without fear of being objective, is the most attractive and intelligent child ever to grace this or any other planet. Barb stays home to raise Katherine and to shovel feed into the gaping mouths of our two disobedient, but friendly German shepherds, named Kootenai and Toquima. We live in Calgary, Alberta, Canada which, for those of us who received a 'C' or lower in 8th grade geography, is 250 miles northwest of Great Falls, Montana, and a five minute walk across the ice floes from the North Pole. Calgary is a city of 800,000 sitting on the prairie about 45 minutes east of the Canadian Rockies, so we have more than a few places to backpack and cross-country ski. Here in town we are blessed with a great church, First Alliance, where we are involved in worship, music and couples' fellowship. Summers, I feed my passion for baseball by playing shortstop on any number of teams, 8, maybe 9 nights a week. That is, when I'm not writing excessively long and boring life summaries for high school reunion yearbooks.

I studied Physics and Geology at Whitworth College in Spokane before making a run for the border to get an M.Sc. in Geophysics here in Calgary in 1982. After teaching college for 1-1/2 years back in Spokane, I was hired by a tiny, little oil firm in Denver known as Exxon. After 2-1/2 years in Denver, oil prices went south and so did we - transferred for a 3-year incarceration in Midland, Texas. In 1989 God heard our pathetic cries for mercy and we were transferred to Calgary, where we wanted to be all along.

I now work for Crestar Energy, a medium-sized Canadian petroleum exploration company that you've never heard of. I love oil exploration, the only bad part being that it often requires working in the oil industry, which in turn means dodging the layoff bullet every six months. My job is to oversee the collection of seismic data, study it, and then recommend where the company should drill to have the best shot at finding oil or gas. Or sometimes I just throw darts at a map and call it a day. Good or bad, the work has taken me to lots of neat places, from Argentina to the Northwest Territories, from Newfoundland to Nevada, and from Paraguay to Nebraska. The most enjoyable was 3 years traveling frequently to and around South America. Yes, just as they warned, you'll always regret wriggling out of that High School language requirement.

We are firmly rooted here on the Canadian prairies and I am now a dual U.S./Canadian citizen, (beauty, eh?). Alberta is home and wild horses couldn't drag me away, even with it's -40 degrees in winter, (we stay quite warm in the igloo by just throwing a few extra sealskins on the bed). Sadly, we'll not be able to travel the 2,000 kilometres to Colorado for the reunion as I have lent my sled-dogs out to one of the Mounties for a few months, so I'll just send greetings and hope I can make it down there in 10 years when

we're all (gasp!) 48.

JULIE (PETERSON) CORYELL

DIES - AUTO ACCIDENT

MONTANA

JAN 97

After leaving Fairview, I attended both CU and CSU in Music Ed and Music Therapy. I found that I really did see this something I would want to do for a while but not as the thing for my life.

Soon after leaving the school scene, I moved to Glenwood Springs, CO where I got the best job I

could think about as the Circulation Manager at the local newspaper, The Glenwood Post.

I met and married a wonderful man. We eloped to Las Vegas and began to travel. In 1989, we came across the Flathead Valley in Montana and that was it!!! We moved lock, stock, and barrel to Kalispell, MT. Well, six months later, we were divorced. I'm still trying to figure that one out because to this day, we are the very best of friends!!

I am now working at a major golf bag manufacturer in Research and Development. (Meaning, I

design Golf Bags.)

I now live in Bigfork, MT and don't think I could ever leave. As much as I love Colorado, I'm hone in Montana!!

KAREN (PETERSON) MARTINSON

I graduated from Fort Lewis College in Durango, CO in 1980 with a B. A. in Business Administration. I met my husband, Bob, of 10 years at Fort Lewis.

I lived in Mission Viejo in Orange County, CA for 9 years and was an Assistant Vice President for a savings and loan in Newport Beach, CA.

Currently, I stay home with my two daughters (Kit, who is 8 and Lesley, who is 6) and live in Albuquerque, NM where we've been for the past four years.

It's not very exciting or interesting, but life has been good to me over the past two decades.

AMY (PHILLIPS) LUCAS

Spouse: Mike Lucas Kids: Lara, 15; Jason, 8

Occupations: Amy - Vocal music teacher

(elem. and middle level) Mike - Real Estate (Remax)

Interests: Aerobics, outdoor sports, music

<u>Funniest High School Memory</u>: The morning (early) I was kidnapped for Excalibur. Our initiation into the group was being kidnapped in our pajamas and taken to a park, then to school. It was the beginning of a wonderful Senior year!

For the past 20 years I've been getting married, raising a family and teaching vocal music in the public schools. I also received my Masters in Educational Counseling. I still live in Colorado.

Major Accomplishments: Excalibur, my two beautiful children, teaching and surviving the ups and downs of life for the last 20 years.

RICK PHILLIPS

Spouse: Suzanne - Physical Therapist Kids: Sons: Connor, 3; Logan, 1

Occupation: Money Manager - Smith Barney

MARY BETH (PIERCE) PRYDE

Spouse: Craig Pryde

Kids: Keri, 9; Meaghan, 6; Kelli, 2

Current occupation: Domestic Engineer

I enjoy biking, sailing, tennis, working out, reading, gardening, and art projects.

The funniest memory I have from high school is when Murray Froelich mooned Sally Turley and me.

The past twenty years I have:

- Graduated from college (UNC)
- Gotten married
- Had three children
- Have lived in the suburbs of Washington D.C. and Chicago
- Traveled to Europe
- Helped my husband renovate our last two homes

LISA PLOOSTER BONI

They say that life is like a book, and I certainly could write one about the last 20 years of my life, but in the interest of all, I will try to write a short review instead!

After high school, I attended the University of Denver as an art/biology/anthropology major for a year and a half. Upon deciding that I had no idea what I was doing there, I worked at various jobs in Boulder and the Black Hills for a year and a half. In 1979, I married Paul Boni, also a Fairview graduate and had four, count 'em, kids.

Jonathan is currently 16 and a sophomore at Broomfield H.S. He is hoping to become a rancher/farmer and spends his summers working to that end.

Jessica is 14 and an eighth grader at Westlake Middle School. She plays violin and is a teachers aide for the art teacher.

Stephen is 11 and in fifth grade at Centennial Elementary. He is a straight A student and excels at nearly everything he attempts.

Zachary is 9 and a fourth grader, also at Centennial. He loves to draw and we fully expect him to

become the top designer for Nintendo eventually!

Somewhere during those years when I was a stay at home Mom, I developed an interest in assisting women during childbirth. I became a certified childbirth educator in 1986 after much study and apprenticeship. I taught birth preparation (Lamaze) classes for Mother House, a home for unwed mothers and coached nearly all of their residents from 1983 thru 1987. From 1987 to 1990, I acted as I.C.E.A. (International Childbirth Education Association) Colorado Coordinator. Since 1987 I have taught for Boulder Community Hospital and for the Boulder County Health Department. I have taught nearly 2,000 couples since I began teaching!

In 1993, Paul and I separated and were divorced and I entered the work force full-time. I am currently head of the drafting department (7 draftspersons) for Lam-wood Systems, Inc. in Denver. We are suppliers of structural and engineered wood products for the construction industry. I continue to teach childbirth preparation 2-4 nights a week as well.

When not working or parenting, I have fun with a variety of activities. Periodically, I design and sew ballet costumes for the Arvada Center Youth Ballet. I love to go antiquing. Gardening is my latest passion, herbs, vegetables and perennials, especially climbing and English roses. I enjoy painting (both watercolor and oil) and do pen and ink drawings (often on commission). I love to do things the "oldfashioned way". We dip our own candles, spin our own wool for knitting projects, weave, sew, can our home grown fruits and vegetables, etc. Celtic mythology, Arthurian legend and Shakespeare are topics of great interest. And in my spare time (!) I design cottages and greenhouses and am studying herbal medicine.

Plans for the future include designing and building my own home, extended trips to the British Isles and the Tuscany region of Italy, and completing college degrees in Architectural Technology and Landscape Design.

ALICE RAMSAY

After graduation from Fairview, I went off to the plains of South Dakota to attend Augustana College in Sioux Falls. I graduated there with a BA degree in physics in 1980. I was then hired by Bell Laboratories of Naperville, Illinois, and they sent me to Stanford to get my MSEE, which I did in October 1981. It was a brutal year of classes, but one of the good side effects of attending Stanford was meeting Tony. We were married in November 1985 in Wheaton, Illinois, and have been blissfully married ever since. We have not been blessed with children, but we had a wonderful dog named Bessie who died in 1992, and now we have a naughtier dog named Dewey. He gets away with a lot because he's so cute.

I worked at Bell Laboratories (which later became AT&T Bell Labs, then AT&T Network Systems, and is now Lucent Technologies) for 15 years, but in June 1995 I decided to take a voluntary layoff package and get out of there. In recent years I had become less and less happy at my job, so with Tony's support I decided to quit and go back to school to get a degree in astronomy. I am currently doing refresher courses (fifteen years without any physics at all!) and anticipate doing that for another year before I can get into graduate school. I hope to attend the University of Chicago and plan to go for a doctorate. The job market is tough, but I figure if I can find something in astronomy, I'll be happier than I was at AT&T.

CHERI(REICH) PHELPS

During the past twenty years I:

Married Michael Phelps and currently have a two and one-half year old son, Connor James Phelps, with another baby due this June. We reside in Fremont, California where we have been since 1985.

I spent four years on active duty in the Navy as a Hospital Corpsman until the expiration of my enlistment in 1985. I then completed my B.S. in Health Care Administration at San Jose State in 1988.

I have remained in the Navy as a reservist since the end of my active duty period, and currently hold the rank of Lieutenant in the Medical Service Corps with a total of 15 years service. I hope to receive a retirement from the Navy some day.

I have been employed for the past seven years at an automobile manufacturing company of 4,500 personnel in Fremont (New United Motor Mfg., Inc.) where I currently work in Human Resources. I am responsible for all employee services, recognition and recreation activities.

One of my major accomplishments to boast is the completion of the San Francisco Marathon in July of last year (that's right - 26.2 miles with lots of hills!). This effort was achieved in conjunction with fundraising efforts on behalf of the Leukemia Society of America.

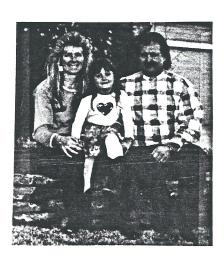

CINDY (RENTFRO) RIGOT

Spouse: Don Rigot

Kids: Kevin, 6; Paige 3

I have been in charge of marketing and customer service at Lutheran Medical Center in Wheat Ridge, CO for 10 years. In the last 20 years I attended CSU and also spent a semester in N.Y. City getting a merchandising degree. I moved to Kansas City to work at Macy's. I met Don in Kansas City and we married and moved to Des Moines, IA where I got a job in marketing for Mercy Hospital Medical Center. We hated Des Moines so we moved to Denver in 1986 where Kevin and Paige were born. We live 1/2 mile from the house I lived in when I was born in Denver.

LORREE (RIEGEL) GABOSSI

Spouse: Ben Gabossi Kids: Michelle, 5

Occupation: Financial Analyst, Texaco Trading and Transportation, Denver, CO

1982 Graduated from Univ. of CO at Denver with dual major: accounting/information systems

1985 Married Ben

1986 Attended 10 year High School reunion

1986-92 Lived in Folsom, CA

1990 Michelle born

1992 Moved back to Colorado

CHRIS RILEY

Spouse: Angela

Sons, Paden and Trey; daughter, Taylor

Occupation: Commercial real estate management and leasing for the W.W. Reynolds Companies in Boulder. After graduating from Fairview, I attended CU and completed my BS degree in real estate in 1981 on the 5 year school and ski plan. I met my wife, Angela, in a required freshman class I enrolled in as a senior. In 1982 I began selling residential real estate in Boulder. I moved over to commercial real estate management and leasing in 1987 with the Reynolds Companies. In 1995 I earned my MBA in real estate from CU. Our first child was born in 1986 and we completed our reproductive period in 1990 with the birth of our last. It's been fun watching them grow up and I sometimes wonder what they will be like in high school. I'll know by the 30 year reunion!

PAUL SALZINGER

Spouse: Mary

Daughter: Jacqueline Nicole - 4 months

Occupation: Sales and Marketing Executive

Interests: Mountain Bike Riding, Skiing, Reading, Walks, Loving Life

<u>Major Accomplishments</u>: One of the founders of Lotus, Ashton Tate and Borland software companies; Staying alive and healthy for the past 20 years, Traveled the world, Lived in London, Meeting my second wife. Mary and having an extraordinary child, Jacqueline.

Funniest High School Memory: Getting tossed out for farting in choir

<u>Past 20 Years</u>: Working too many hours growing young software publishing companies, moved 17 times, lived in 10 different states/countries, married for 7 years (itch, itch), now married for 2 years to a wonderful nurse and mother of our child. Now an Internet business consultant.

ERIC SCHMIDT

Single

Occupation: General Manager, Upper San Juan Hospital District

<u>Interests</u>: Mountain biking, skiing (on water, in the back country and down hills)

<u>Major Accomplishments</u>: Own a motor vehicle that was built in the current decade (well, half of it)

Design and construction of the community clinic and urgent care center in Pagosa

Springs

<u>Funniest High School Memory</u>: When Dawn slammed my thumb in the car door at Dairy Queen. I asked her to open the door so I could get my thumb out and she said, "No." (Obviously, she was fooled by my calm demeanor in the face on intense pain.) After I asked again, actually I insisted, she realized that my thumb really was caught and she opened the door to release my nearly two-dimensional appendage.

The Past 20 years: School. Work. School. Work. (The work part really cut into my free time. I should go back to school.)

The most current picture I have is at least ten years old. Just remember what I looked like at the last reunion without the green jacket.

KATHY SCHMIDT

When I first left Fairview I attended the University of Colorado at Boulder for two years as a piano major. I then relocated to Tempe, Arizona and attended Mesa Community College and Arizona State University, also majoring in piano. Wanting to change the direction of my life I left school and entered the working world. While looking for my direction I assisted others in finding theirs. I helped people find homes by selling real estate, helped people find jobs by working in a temporary placement, helped people get lost by bartending, and helped people find apartments through the Apartment Shoppers Guide.

I finally settled down a few years ago and returned to school. Also, finally met the right Mr. Right (Jerry Kleinfieldt). I received my Associates of Science in December of 1995. This was a very exciting month as I also had my first child. Jerry and I had a son, Christopher. Currently, I am working as an office manager for a software development firm in Colorado Springs, Colorado. I am also enjoying Christopher who is now 7 months old. I will be returning to school soon to pursue my Bachelor's Degree and teacher certification. I plan to be teaching secondary math by the time Christopher begins school.

MICHELLE (SCHNEIDER) SERINI

My husband's name is Barry Serini and he is an engineer with the Tennessee Valley Authority. Since graduating from high school, I received a B.S. in Business Administration from CU. Since that time, I have worked in the fields of accounting, personnel (Human Resources) and temporary and permanent placement. I am currently enrolled at the University of Alabama-Huntsville to complete work on my M.S. degree in English, with teaching certification.

As far as interests go, I am on the Board of the Huntsville branch of the American Association of University Women (AAUW) and just recently attended their regional convention. AAUW is working for equity in education for women and girls. I am still involved in politics and enjoy reading, crafts and gourmet cooking.

KATHY (SISSON) ANDERS

Spouse: Tim Anders

Kids: Mickela, 9; Shaina, 7; Matthew, 3

Occupation: Interior Designer for 18 years employed by various companies --currently self-employed. I've become the "Martha Stewart" of Lafayette (except for the cooking!) I also manufacture a line of aerobic gear. I still love all sports - but mainly enjoy golf now.

I'm not sure if this was the funniest memory - probably the most embarrassing though. I was called up on stage at a school assembly to have a group sing the song "Quit your fooling around" to me. I'm sure my face was as red as my sweater.

Major Accomplishments: Being blessed with three great kids and staying married 17 years.

LINDA (SNOW) JONES

I am married to Tom Jones (the other one) and we have three children. James (18 years old, Samantha (17 years old) and Amanda (12 years old).

For 11 years now I have owned and operated a very successful preschool. I have helped many children to get ready for their first years of public school.

My hobbies deal with many craft and art forms. I work with paints, plasters, clay, wood, and the art of stained glass. My career as a preschool teacher has been very rewarding, but I would prefer a career in the arts. I also spend as much time as possible swimming. We moved to Arizona in 1989, where I enjoy swimming year round in our pool.

Over the past twenty years, my husband and I have enjoyed several trips to Europe and have learned to scuba dive. We enjoy living in "Sunny Arizona."

My major accomplishments have been owning my own business, raising three wonderful children and taking care of a small family "zoo", which include two dogs, Nicko the potbellied pig, Bridget the bunny, and Georgie, Iggy and Ziggy, the Green Iguanas.

High School was for the most part, "just business as usual". The funniest thing I can remember about High School was the time of the "Streakers".

NINA (SPARKS) GARFIELD

Spouse: David Garfield

Kids: Anna, 14; Michael, 12, Blake, 10;

Evan, 7; Erin, 5

I have attended college after high school, got married in 1980 and have stayed home to raise my children ever since.

LENETTE (SPORN) EVANS

Spouse: Billy Evans

Kids: Dueray Evans, 6; Shawn Gifford-Evans, 15; Sara Evans, 17 (step-child); Joshua Evans, 20 (step-

child)

Occupation: Electro-Laser/Optics Technician

Job history: Rocky Flats - 3 years (presently)

StoragTek - 15 years Misc. - ski factory, cook

Major Accomplishments: Splendid Christian marriage and family

Self-built dream home, cars and toys

Interests and Hobbies: Plan on being a housewife soon

Childhood fantasy came true of my own black Arabian stallion and mare

Still plan on getting a pilots license someday

Still want to travel the world

Husband's Occupation: Pastor, general contractor

Past 20 years:

The <u>first</u> ten years I was kind of wild and crazy. At first, I got married, had a son, and got divorced. Then, I spent several years raising my boy, working and going to school at night. I played hard -- riding

horses, dancing, marshal arts, etc. and had a lot of fun.

The <u>second</u> ten years I found Jesus, my husband and a lot more fun. I've got a great family and job, and we do a lot of neat things together. All my dreams have been coming true. Life just keeps getting better, especially with Jesus in it.

CHUCK STEARNS

Occupation: Senior Software Technical Lead-

UGC Consulting

Another ten years, another ten pounds! This is really getting scary with the big "Four-Oh" looming just a couple years from now. But it's not too bad. I used to live on the edge of nowhere (in southeast Aurora) and things have really grown up all around me. I'm located just about midway between Cherry Creek Reservoir and Aurora Reservoir which makes for easy recreational times. So let's see, what have I

been doing since the last gathering...

I have spent nearly the last ten years designing and developing software for some fairly sophisticated flight simulators for the Army, Navy, and Air Force. I did quite a bit of work on simulating the weapon systems (gee, is this a surprise?) for the F-16 Falcon, F-14 Tomcat, F-15 Strike Eagle, F/A-18 Hornet, and the AH-1 Cobra Attack Helicopter. Basically these are just expensive video games, and there's nothing better than going to work and getting to play them most of the day. But it's not all fun and games. The tight schedules and technical challenges take their toll and produce a fair amount of stress. It is for that very reason that in July of 1995 I jumped at an opportunity to leave the aerospace industry for my current position with the UGC Consulting. UGC builds geographic information systems and mapping systems for the Utility Industry (Gas, Electric, Telephone, Cable, Water Works, etc.). Our systems help these companies track their above ground and below ground assets, manage the maintenance activities, respond to emergency situations, and operate more profitably. The work is nowhere near as complex as aerospace work, but it does have its own unique challenges. Currently, I have clients in the Northeast US, Toronto, Vancouver, and soon, New Zealand. The travel gets a little tiresome now and then, but the Canadian trips have been pretty fun.

I still enjoy being in and around the water. Boating and water skiing on my sport cruiser, blasting around on the jet ski, and blowing bubbles with the SCUBA gear always makes for a relaxing time. Lake Powell is a favorite place of mine to visit and I try to make it there every year. The most memorable SCUBA trip so far was to Belize, Central America via an unscheduled stop in the heartland of Honduras. If you are ever traveling south of our border and your destination is not a Honduran city, then don't fly a Honduran airline! Although the overnight stay in San Pedro Sula was fairly uneventful, and the beer was good (Salva Vida!), the teenage military recruits wandering about with automatic weapons tends to make me a little nervous. I did make it to Belize the next day and the native people were absolutely great. The dive guide that my group hooked up with was related to about half the island. He made sure we got special treatment everywhere we went. The diving was great and the trip was capped off by a Thanksgiving feast on the beach, with roast wild boar, fresh lobster, prawns, and an assortment of fish, and entertainment by

a native steel drum band, all compliments of our dive guide's uncle.

I'm still somewhat of a motor-head. I don't work on cars as much as I used to and, in fact, I sold my '67 GTO and my '69 Trans Am (first year they were built) in 1987, so I could get \my first boat. Since then I acquired a 1979 Tenth Anniversary Trans Am (rare T/A 6.6 motor with factory Hurst 4 speed) with very low miles. The original owner of this beauty...my mom! She bought it from Polard Motors in Boulder in March of 1979 and I bought it in December of 1989 with 21K miles on the odometer. I also still have a great interest in motorcycles. My latest ride is a Suzuki Katana 750, not the fastest of the crotch-rocket style bikes, but it's comfortable and fun. I've had it on Second Creek Raceway (North of Denver) several times and it is a blast riding a road course at wide open throttle. It just so happens, A Fairview alum, a couple years behind our class (Don Hough) holds several of the track records in Colorado. The mountain canyons west of Denver are also a favorite weekend riding excursion.

Recently I have dabbled in flying small aircraft such as Cessna and Piper 4-seaters. After the many years in flight simulation I figured I might as well try flying for real. I fly out of Centennial Airport just South of the Denver Tech Center. It is one of the busiest general aviation airports in the country, and flying out of there can get fairly hairy at times. All that congestion just makes for better piloting skills. The major accomplishment I am most proud of is the day I flew my first solo cross-country flight. Flying across Southeast Colorado, just me, my flight gear, the plane, and the terrain below. It was a personal challenge and the freedom of flight is so very exhilarating. Flying has been one of the most satisfying experiences of my life.

Well, I've babbled on long enough, hope to catch up with many of you at the reunion. Until then...

Peace.

MARC STEGER

May 5, 1978 Marc Steger made the best decision of his life and married Paula Coleman (graduated 1975-Belleview Schools, Westminster, CO -- one of a graduating class of eight!) After honeymooning in Boulder for 3 months, we moved to San Diego and worked (for other people) in the jewelry industry until we opened our own family run fine jewelry store (Gems of La Costa) in 1984. We ran the store for 5 years, then our family sold it. I opened my own jewelry shop (Marc Steger Jewelry) one block from the beach on Coast Highway 101. I make custom jewelry, do repairs, and repair watches and clocks. I also operate a Dental equipment repair service called Contech. Paula works with me part-time and for one of my repair clients, a jewelry store named Crystal Gallery.

For fun, the San Diego area gives us the desert to fly our ultralight and radio-controlled planes and cars, and to ride our dirt bikes. The local "mountains" (nothing like the Rockies, though) gives us camping, bicycling and skiing. The seashore provides a place to enjoy our 321 Boulder motor home for swimming and surfing (72 degree water) in style. Most of our free time lately, though is spent on our 17' cuddy cabin boateither deep sea fishing or going to "Concerts by the Bay" or crossing 36 miles of open ocean to spend a few days at Catalina Island. I still enjoy cruisin' in my restored '65 pickup, playing guitar, and shooting on the range.

JANE (STILSON) KLOSTREICH

Spouse: Scott Klostreich Kids: Matt, 11; Nick, 8

DAWN SUITTS

Spouse: David McMahon Kids: Emily, 7; Molly, 3 1/2

Occupation: City Planner/Mom

Interests: Gardening, cooking, the beach, working with children, provision of housing to low-income families

Funniest High School memory: Trying to get Jean Raikes and Mike Henderson out of my parent's sauna. They locked themselves in for over 2 hours!

For the past 20 years: I went to Colorado College, moved to San Diego, went to UC Berkeley for a Masters in City Planning, had two beautiful children, stayed married for ten years and counting, coached soccer, worked as a city planner, sat on boards of directors for non-profit agencies, in training to be a mediator, learned not to take life for granted.

SHARI SWANSON-HICKS

Spouse: John Hicks Kids: Jolie, 7; Evan, 6

Occupation: Accountant

Major Accomplishments: Becoming a mother

Moving back to Boulder after being gone for ten years.

Hobbies/Interests:

Gardening, hiking, history

LYNN (TODD) LETENDRE

I have worked as a Purchasing Agent for Adams County for 13 years. I love my job. I have a beautiful and loving 9 year old daughter. Her name is McKenzie. McKenzie and I love riding our horses that are located in our backyard in Arvada. We just enjoy our life.

The past 20 years: I searched and found my birth family as I was adopted. My birth family lived next door to my best friend, Amy Barnard, and I went to school with my brothers at Fairview High School and never knew it. Guess who they were???? I've been married and happily divorced. My biggest accomplishment is being drug and alcohol free for a long period of time, and giving back to my world all the gifts I have been given.

SALLY (TURLEY) PAYNE

Spouse: Dennis Payne

Kids: Ben 14; Chris 12; Sam 10; Tom 8; Zach 6; Emily 5; Hannah 2; Molly four months

Dennis and I both graduated from Colorado State. I have been a homemaker for the past 15 years. Dennis is an electrical engineer. There's never a dull moment at our house, but in our "spare" time, we enjoy bicycling, hiking and running, as well as watching our kids compete in sports. We're active in our church in Broomfield, Good News Community Church.

Some of my best memories at FHS revolve around Young Life meetings and camps.

BRETT WALLACE

Spouse: Stephanie

Kids: Lindsey, 13; Robin, 12

Brett and his wife Stephanie are both music teachers in the Boulder Valley School District. In fact, both work at Fairview, where they team-teach a string orchestra of about 65 students. Compatibility is not a problem, as they are both cellists, teachers, conductors, and best friends. Music is a way of life for the Wallace family and has been a large part of Brett's life for the past 20 years. He has conducted the Colorado High School All-State Orchestra, and is in demand as a conductor and clinician for the state and Rocky Mountain Region. Brett has played as a studio musician on many albums and soundtracks and has performed with many professional orchestras in the area as well as such artists as Ray Charles, Page and Plant, Dionne Warwick, and Bernadette Peters. He and his wife are also the conductors and musical directors of the 170-member Front Range Youth Symphony Orchestras.

1990

GREG WEITHONER

Spouse: Debbie Kids: Dylan, 7

Occupation: UPS driver, 12 years; Debbie - Nurse

Hobbies: Greg - skiing (snow and water), biking, swimming, softball

Debbie - biking, swimming

Dylan - karate, swimming, skiing, biking

Major Accomplishments: Being married for 15 years to the same beautiful woman who treats me great.

Working for United Parcel Service for the last 12 years.

Funniest High School Memory: It was amazing with all of the things that the "Hoot Owls" did that none of us ever got into any serious trouble. A few of the Vail trips were fantastic that we would take. We'd skip class on Friday and go skiing the whole weekend.

GREGORY WILLS

Spouse: Mary

Kids: Sons: Adam, 13; Connor, 8; Devin, 6

I am still married to Cliff Jamison and we have 2 daughters, Amanda, 10, and Sarah, 6. I have my Bachelor's Degree in Nursing. Ten years ago I was working at a place called the Eastern Star Home of Colorado as one of the charge nurses. In 1991 I quit that to stay home and take care of my family. So now I don't work for pay, but I do a lot of volunteer work. I have been a Sunday School teacher, Vacation Bible School teacher, and Awana leader. And since both girls are now in school, I work in their classrooms, the media center, or wherever they need me. My newest role this summer is as a T-Ball coach. I do occasional babysitting but what I really enjoy is making crafts and doing needlework. I am currently making sweaters for the American Girl doll collection. We have been able to take some fun family vacations to Disneyland, Sea World, the Grand Canyon. We see Mount Rushmore every year.

We had a difficult time earlier this year when Cliff developed health problems. But God helped us

through and Cliff is doing much better.

I can't think of my funniest High School experience. That part of my life gets hazier every year, it seems. Are we really 20 years past that? I think my grandmother went to her 70th a few years ago. WOW! (See you in 50 years?) I am looking forward to seeing everyone at the reunion. God bless you all!\

RENEE (WILSON) BROWN

Spouse: Gary Brown

Kids: Jonathan LeBerge, 16; Jordan LeBerge, 13; Phillip Brown, 14; Jason Brown, 18

My occupation is a massage therapist and Jin Shin Jyutsu practitioner.

Interests: Horseback riding, camping, gardening, biking, hiking.

Gary's occupation: He owns GB Home Inspections and GB Glass Services. He does home inspections on new homes or resale for the buyers, and also installs new window packages for new homes or repairs and remodels.

I moved to Tucson in 1980. That is where Jonathan and Jordan were born. I started to take massage classes in 1987. We moved 60 miles SE of Tucson to a rural community named Elgin in 1988. The beauty of this area is what attracted us to move. In 1993 I married Gary Brown and we continue to live in Elgin and raise our boys.

PATRICIA (ZWISLER) SMITH

After graduation I worked in Boulder and attended Metro in Denver. I met David Smith June, 1978 and we were married March, 1979. I worked for Pannel Kerr Foster (a large accounting firm) as the Office Manager for 2 years and then for Barclays Bank (an International British Bank) as Executive Secretary for the Head of the North American Energy Department for 5 1/2 years. We had a daughter "Katie" September, 1986. In December, 1988 we moved to Dallas, Texas. David's business takes him out-of-town on an average of three weeks a month and so I am home with Katie (9 years old). Between her activities, my volunteer work, my catering business and a small craft business I dabble in, I am very busy.

BRIAN DEAN

Graduated from Colorado State University with two degrees in the plant sciences. Married and divorced. Lived in Fort Collins til 1989, moved to Petaluma, California, worked in Sausalito for a consulting firm, moved to Nevada in 1993. Occupation as a landscape designer and consultant for legal counsel, property managers and developers. s Winter occupation as a visual artist. Currently living in the Tahoe area. Accolades include: Best of Show at a four state art competition, several honorable mentions at other art shows; President of the Nevada Landscape Association (NLA); recipient of NLA Ambassador's Award. Hobbies include sailing, skiing, cooking, and art collecting.

JENNIE (IDE) MURPHY

A friend of mine said they had a theme for their 20 year reunion, it was "Get over it, it has been 20 years". That's kind of what I need to keep saying "Get over it". Oh well, so what if my parents had a nicer home and much older children by their 20 year reunion. I remember they day they went. I was thinking "boy, that is a long time to have not been a kid". Well, here goes!!

I had a wonderful career at Ball Aerospace (Boulder, Westminster) for 15 years and quit it all to be a mom last year (9 month old Maggie Mary). Late bloomer, but it was worth the wait. I love it.

During those 15 years I traveled quite a bit and rodeoed a lot. I also published a newspaper, did some mortgage brokering and produced rodeos during that time. I qualified to go to the Women's National Finals Rodeo in 1991 in the team roping.

My husband Larry and I recently moved from Broomfield to Colorado Springs. He is a Deputy with the El Paso County Sheriff's Department. We are moving to Peyton (15 miles east of Colorado Springs) the weekend of the reunion. We just bought a new house with some acreage for our horses and a roping arena. We are pretty excited about that.

So there it is, I don't drive a jag, I didn't marry rich, no plastic surgery, and I'm pretty damn happy, so GET OVER IT!!!

LAURI THOMPSON

After high school I graduated from the University of Utah in 1979 with a degree in fine arts. I was a professional ballet dancer for a few years, performing with Ballet West, Jackson Ballet, and Nevada Dance Theatre. I then became an entertainer. Basically the same thing, only it's a lot less work and a lot more money. I've worked as an actress, model, singer, dancer and a spokesperson.

I currently have an adagio act (a dance act with a partner that is similar to classical ballet and ballroom dancing) in the Folies Bergere here in Las Vegas. I recently went back to school to get my law degree and am expecting to get my juris doctorate from the University of San Diego in May of '98.
